ROCK SOLID RELIABILITY

CACHING TRANSFER BUFFER

$129

PN-CD7

ONE YEAR BRAND NEW WARRANTY

AUDIO COMPLIANT VISUAL

GET PERFORMANCE NOW!

Store up to 4706MB on CDs and get to it fast with this CD Library. The Fast SCSI-II Double Speed CD Changer automatically loads seven disks and retrieves your data quickly with a 300-1500KB/sec transfer rate. The on board caching buffer gives you instant access to important data.

This complete CD sub-system includes the Double Speed SCSI-II Changer in an external case and driver software for SCSI PC systems.

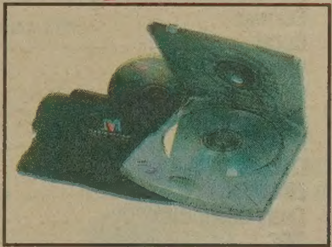
Play multimedia, Photo-CD™, audio, and XA CDs today! Try one of these super CD Drives for 15 days without risk*.

Accelerated caching software drivers for Macintosh™, now available, only $29.

*No risk 15-day trial period on all drives. See invoice for complete details.

KEEP SEVEN CDs ON LINE, READY FOR INSTANT ACCESS

$79



PORTABLE CD-ROM AUDIO CD DRIVE

The RENO portable CD-ROM Drive gives you two CD drives at one low price. Use it with headphones or attached to your home stereo for crystal clear audio. Attach the SCSI-II docking port and it's a high performance 2X CD-ROM drive, PC, Macintosh, and Photo-CD™ compatible.

DDD COMPATIBILITY GUIDE

486/586/Pentium PC

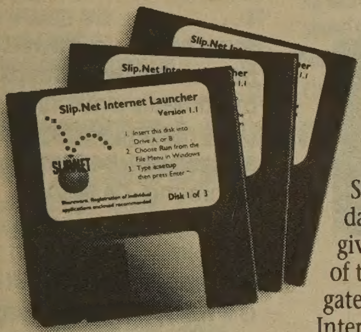
ISDN Now Available!

Slip.Net gives you 10 FREE days on the Internet.

Take your time (and ours) to get acquainted.



Slip.Net Internet Launcher
Version 1.1
1. Insert this disk into Drive A: or B:
2. Choose Run from the File Menu in Windows
3. Type acsetup then press Enter
SLIP.NET
Shareware. Registration of individual applications enclosed recommended
Disk 1 of 3

Test and try before you buy.

Slip.Net's 10-day free trial gives you plenty of time to navigate around the Internet to learn what you can use. Enjoy the luxury of exploring new destinations. There's room for trial-and-error. Without running up your bill. And if you decide Slip.Net isn't for you, there's no obligation.

How can Slip.Net afford to give away 10 free days? We benefit because our client's responses teach us about their future needs. Besides, we believe that after you get familiar with our system, you'll want to continue using it.

Slip.Net's features beat the competition. We offer:

- Unlike some providers, Slip.Net doesn't charge for extra hours, our Personal Direct Connect™ account includes a low monthly fee with UNLIMITED local Point of Presence. This includes a personal Web page so you can put yourself on-line!
- Windows and Mac Internet Launcher Software.
- Electronic mail, WAIS, Veronica, FTP and ClariNews!
- Over 100,000 files to download.

$19.95*
Per Month
Full SLIP/PPP Shell Account Included!

Install Slip.Net's Internet Launcher and access the best shareware on the Internet.

First, Slip.Net has automated installation. Instead of a 20-step start-up, you get packages that install themselves. Use ours or bring your own.

Second, we've researched the shareware in the marketplace so that you get only the highest quality. You get the top applications for e-mail, file transfer, Web browsing, and more. All of our accounts feature a true PPP connection.

For a smoother ride on the information highway, ask these questions:

- **Speed of access?** Slip.Net provides faster access than other companies because we don't overload.
- **Busy signals?** Slip.Net has invested in staff and equipment so that you won't get a busy signal.
- **Technical support?** Slip.Net provides help with your launcher, basic configuration and everything else. Our staff is available when you need them most, evenings and weekends.
- **Full Service?** We do not cut corners. We offer full service and excellent connections. You won't find any restrictions at Slip.Net.

Is there such a thing as a FREE lunch?

LearniT! Well, almost. Slip.Net, in association with LearniT! offers noon classes using our Slip.Net Launcher™. Not only will you learn about the internet with the best Internet software, you'll get a FREE lunch (Class is $20). Sign up now, space is limited.

LearniT! offers a wide range of Internet classes. For the latest schedule and class descriptions, give LearniT! a call today and you will experience the magic of learning computers. LearniT! can be reached at 415.693.0250 or learnit@slip.net.

*Plus a one time $30 start-up fee.

TOP 10 Internet Applications

With Slip.Net's Launcher, you're only one click away from these popular internet applications

1. Netscape Navigator
2. Free Agent News Reader
3. Eudora
4. MS Internet Assistant
5. Acrobat Reader
6. WS_FTP
7. Internet Phone
8. QVT Telnet

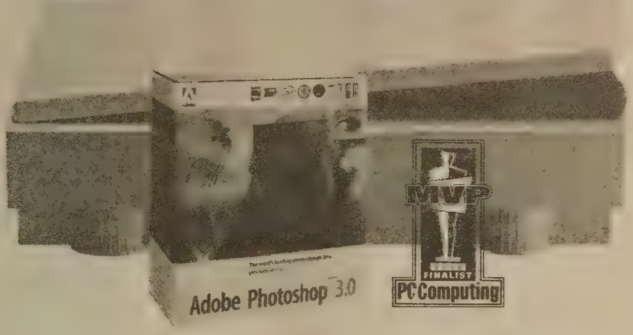
"The fastest of the 16 scanners we tested in this roundup." – PC Computing

"There is no better place to buy a scanner!"

Leo Laporte,
Laporte on Computers
KSFO Radio 560AM

Envisions 8800S with Adobe Photoshop 3.0



$699

- 400dpi x 800dpi optical resolution
- Speedy single-pass scanning engine
- 24-bit true color CCD optics
- SCSI-2 Interface card & cable

FREE Photoshop!

"Speed, a modest price, and sophisticated fine-tuning make this scanner a high-performance bargain." – Computer Shopper

Where else can you try a scanner before you buy a scanner?

Try out the latest and greatest desktop scanners at the Bay Area's only scanner showroom, located just off 880 in Fremont. Our friendly sales staff will show you how to get started scanning, and will help you decide which scanner is right for you. It's the perfect way to try before you buy!

Envisions has the best scanners and the best deals. Look around and you'll see we're the only ones with...

Factory Direct Pricing – Envisions sells direct to you, eliminating the middleman and saving you hundreds of dollars. No one else comes close!

30-Day Moneyback Guarantee – If you're not satisfied, return your scanner for a full refund. Unlike our competitors, we have NO restocking fee.

Windows95 Compatibility Today – Our 32-bit DynaScan drivers are fully compatible with Windows95, and they won't cause any IRQ or DMA conflicts.

Three-Years of "Best Buy" Awards – Computer Shopper readers voted Envisions the Best Buy in scanners for three years in a row.

Automatic Color & Descreening – Only Envisions scanners come with DynaScan Twain software that automatically corrects and descreens printed photos.

Scan, Copy, File, Fax... Presto! – All of our scanners come with Presto! software for scanning and storing pages, making copies, sending faxes, and performing OCR. Presto! puts everything you need at your fingertips.

Top Quality DynaSCSI Components – Every scanner we sell comes complete with the components you need to get started. Our unique DynaSCSI cables and cards make setup a snap.

Come in today and discover just how easy scanning can be. The Envisions Scanner Showroom is the best place in the Bay Area to buy a scanner!

1995 Writers' Soapbox Awards

Once again, as we do every year at this time, we invited our writers to sound off about whatever is pleasing or bugging them about the computer business this year.

And once again, we have a motley collection of praise and brickbats, flames and beatific smiles, on a range of products and subjects. We hope you find entertainment and enlightenment in their highly subjective and sometimes contradictory views! This year's insightful and fun collection begins on page 16.

—eds.

When It Comes To Pentium® Processor Power

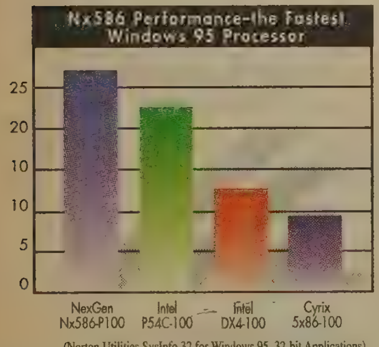
SMART PC BUYERS ARE PICKING OUR BRAINS.

More and more PC-savvy people these days are picking the NexGen® Nx586® processor. Because it's the only fifth-generation Pentium® alternative that's ***truly a generation ahead****. In performance. In architecture. In value.*

Next-Generation Performance

Compare processing power with Pentium. You'll find the Nx586 choice a no-brainer. It goes head-to-head against Pentium on 16-bit applications. And **outperforms Pentium by up to 25% on Windows® 95**. That puts you ahead, running today's software. And keeps you there as PC software migrates more and more to 32-bit.

Plus, an Nx586-based PC takes you **smoothly into the future**. You get performance levels up to P133 today, with more to come in the future. With or without floating-point coprocessor. And you can choose from the latest NxPCI™ motherboards in standard form factors–drop-in solutions that fit your business model–and PC–seamlessly.



(Norton Utilities SysInfo 32 for Windows 95, 32-bit Applications)
All systems measured at P100 performance level.

Next-Generation Architecture

Check our processor design. NexGen's patented, high-performance **RISC86™ microarchitecture** is the first full application of RISC technology to the x86 instruction set. Offering state-of-the-art capabilities such as:

- **Speculative out-of-order execution**–the superscalar Nx586 features 4 independent execution units, operating on instructions in optimal performance order.
- **2-level branch prediction**–predicts application branches with over 90% accuracy.
- **The industry's largest Level 1 cache**–32-Kbyte on chip.
- **On-chip Level 2 cache controller with private 64-bit bus to L2 SRAM**–eliminates system bus collisions, helps prevent CPU stalls and allows the L2 cache to run at full CPU core speeds.
- **Three 64-bit dedicated CPU buses**–for contention-free access to data.

Analysts have said the Nx586 design "...may resemble Intel's P6 more than Pentium..." (Michael Slater, Microprocessor Report, Oct. 1994).

Next-Generation Value

Be picky when you're looking for more PC brainpower. Because now you can get fifth-generation performance–with full x86 binary compatibility–at a **great price**. So you can either get more computing power for less. Or you can re-invest your Nx586 **system savings** in an array of power options. Megabyte memory upgrades. Dazzling graphics. Multimedia gear. And much more.

When you choose the NexGen Nx586, you're getting **the one processor that's got it all now**. The quality and reliability you expect from our manufacturing partner, **IBM Microelectronics**.™ Superior **fifth-generation performance. Sixth-generation RISC86 microarchitecture**. All at an unbeatable price.

For details, or your local dealer's name, visit our Web site at **http://www.nexgen.com.** Or look for NexGen systems advertised in this magazine. Resellers please call **1-800-8-NexGen.**

Everex TempoNote

The BEST VALUE Multimedia Notebook — Guaranteed

AMD486DX4 performance

The Everex TempoNote is built around AMD's Am486DX4-100 or Am486DX-120 processors, an excellent solution for high performance multimedia systems. With the AmDX4-100 providing up to 50% performance increase over the 486DX2-66, the TempoNote offers 586 class performance at a 486 system price.

Multimedia Modularity

- Am486DX4-120 or DX4-100 processor
- Detachable 10.4" Dual Scan or 9.5" Active Matrix display
- Memory support up to 20 MB
- Easy-to-upgrade removable hard drive up to 810 MB
- Built-in microphone, stereo speaker and digital sound card
- 2 Type II or I Type III PCMCIA slots
- Serial/parallel ports, PS/2 keyboard/mouse ports, external SVGA port
- Windows 95 or MS DOS and MS Windows
- Optional PCMCIA CD-ROM, PCMCIA fax/modem
- Light-weight: less than 5.7 pounds
- Two year warranty and 48 hour express service

Low Price Guarantee!

LENNY BAILES

Software

1. Windows 95 (Microsoft)

Although this operating system wound up falling short of several Microsoft promises for it, Windows 95 is a successful upgrade from previous versions of Windows. It offers a more attractive and flexible user-interface, more bundled productivity utilities, superior installation and online help, and vastly improved user configuration and hardware support.

2. WS_FTP32 (Ipswitch, Inc.)
32-bit FTP Client for Windows 95 and Windows NT

Conveniently accessible shareware product. Clearly the easiest to use, most logically designed FTP utility available for the 32-bit Windows environment.

3. Netscape 2.0 for Windows 3.x/Windows 95/Windows NT (Netscape Communications)

The fastest, most accessible, most full-featured World Wide Web browser on the market, including a bundled Usenet News Reader, email manager, and a bookmark management system that is much improved over previous versions.

4. Drag and File/Drag and Zip for Windows 95 (Canyon Software)

Full 32-bit Windows file manager with long filename support, built-in archiving, multiple drive windows, and other bells and whistles. Contains all the features Microsoft left out of Explorer. A cheap and worthy shareware successor to products like Central Point's XTree Gold and PC Shell.

> **JONATHAN E:**
> I GUARANTEE THAT CD-ROMS WILL HAVE A LONGER LIFESPAN IN THE MARKETPLACE THAN THE TECHNO-DWEEBS PROPHESIZE. I ALSO GUARANTEE THAT THE MARKETPLACE WILL BE HAPPIER SOONER IF CD-ROMS WERE TO START COMING SHRINK-WRAPPED IN A JEWEL CASE AND NOTHING ELSE.

Hardware

1. WinBook XP Pro 486DX4-100 Notebook Computer

The WinBook may not have the most bells and whistles or the best keyboard in the notebook industry, but it takes care of business, offering fast, rock-steady performance, a large hard disk, lots of RAM, Win 95 and OS/2 compatibility, and multimedia support at a price significantly lower than its chief competitors.

JONATHAN E.

Shipping Air And Hot Air Or What's With The Boxes? What's With The Brain Cells?

If I hear one gripe over and over again about the multimedia titles business, it has to do with distribution and getting your titles into the stores. Not enough shelf space and, of course, the practice of the chain stores extorting "rent" on shelf space for the privilege of carrying your title are the twin problems.

Well, what's with the giant boxes? Why is every CD-ROM cocooned in a box that's bigger than most books? Wake up, people; shelf space for titles would be at least tripled and probably quadrupled or even better if you got rid of the dumb boxes.

Big boxes are nothing better than a waste of resources. First, they're expensive; add up the design, printing, and manufacturing, and I'll bet they come in close to and probably over $3 apiece. Second, all those trees. Oh, sure, there's probably some percentage of postconsumer waste, but that's still a lot of energy spent driving around picking up old boxes and recycling them—and recycled paper mills are not clean operations. Third, it's a waste of all that valuable shelf space; if CD-ROMs are going to become a truly viable media alternative to books, CDs, and videos, not only do they have to genuinely improve on those media (a doubtful proposition in all too many cases), but the business is going to have to stop having "penis envy" about the packaging. Bigger is not better, it's what you do with it that counts.

And, what do most people do with the box when they get it home? Oh, yes, yet more post-consumer waste!

Whenever I ask a developer or publisher about the box issue, I'm told it's for "marketing." Hey, if some marketing schmuck can't think of a better campaign than making a big box, fire 'em! One publisher claimed that the additional materials, a coloring book, that come in the box was the reason for the box. I don't buy it; most titles don't have anything else worth having in the box—what you get are mostly advertisements for online services. It's not like there aren't enough of those already!

Besides, there are easy alternatives ranging from having the books available separately in the store, either for free or for a couple of dollars (oh, another SKU!), to sending them out when the customer returns the registration card—and, maybe that way you'd eventually have better communication with your customer.

It's been mentioned that big boxes are a way to hog space and keep competitors off the shelves. How old-paradigm! Are publishers afraid to compete on the basis of quality? Do they feel they must resort to old-fashioned physical and financial muscle in order to prevail in the marketplace? And have you actually been to a store that sells these great big boxes and looked at them? They're mostly as ugly as sin; off-putting rather than attractive!

Other physical media have at least somewhat efficient distribution systems that penalize rather than reward nonstandard packaging—except in special cases such as box sets or commemorative editions. That's smart marketing, not unimaginative marketing-by-rote-and-numbers. Another thing those media have going for them is some appreciation of publicity through other media channels, newspapers, magazines, television, and radio—and, just as importantly, at least some of those channels spend the time or space to intelligently discuss the good and bad points of films, music, or books. I can't tell you how appallingly inadequate the public-relations machinery in multimedia is; let's just say it sucks!

Now to attack the print and broadcast media. It should be obvious that the average review of 250 to three hundred words that most magazines grant CD-ROM titles is pathetically inadequate. I'll agree that if a title is a total failure you can dismiss it in a few words, but most titles fall

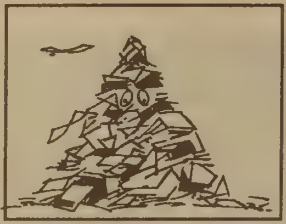
How I said goodbye to stress



November 1:
Bogged down in paperwork. Holidays postponed. Family really ticked off.

November 15:
Purchased popular accounting sytem to help make things easier.
Big mistake.

For he's a jolly good fellow...!

December 15:
Took Bernie my accountant's advice and bought Abacus II. Suddenly I'm a hero...

Kowabunga dude!

January 15:
Finally on vacation. Abacus II worked so well I took Bernie along. That's him surfing.

Let ABACUS II take the stress out of YOUR life. Call now for your FREE multimedia CD or demo disk.

somewhere between barely acceptable and quite good. I can tell you as a writer that you can't honestly deal with the subtleties in that skimpy a word count. I, for one, am utterly sick of reading gaga reviews (needless to say, by other writers in other magazines!) that read like the product release sheet with a list of features and absolutely no intelligent assessment of the strengths or weaknesses of the title—especially when there's a big paid ad for the title in the same issue. I'm also utterly sick of the inane cheeriness and very shallow optimism displayed by the hosts or correspondents of any television program dealing with any aspect of multimedia. Talk about hot air and hype—and it's such a contrast with the fear and distrust expressed when covering any of the more underground cyberculture, the stuff you can't buy and be a good little consumer of!

So the poor consumer is left with very limited and unreliable sources of information. What are they to do? Well, the sad truth is that any idiot shopper who buys your title based on the box is too stupid and uninformed to be a worthwhile customer. They'll be calling your support line with some real doozies, and in many cases, they should be bringing the title back anyway for a refund if this wasn't such a dumb, greedy, software-centric business with such customer-unfriendly policies.

Don't get me wrong. I'm not ringing multimedia's death knell. It has a future in almost any course it pursues. But there's a choice between evolving to become a vital cultural force, a real media channel for providing information and artistic expression, or being some cheesy, repurposing wanna-be, always playing catch-up to more established media.

Ironically, to stop playing catch-up, the multimedia business must learn some of the lessons those other media businesses have learned. Does anyone remember all the stupidity over long boxes in the music business a few years ago? Record stores are now doing just fine selling CDs in plain jewel cases. Can you imagine book publishers being afraid to compete on the quality of the words they publish?

Sometime in the future, there's a possibility that everything will be online and you'll download it—look, Ma, no packaging—but that time is further off than the visionaries proclaim. When that day arrives, multimedia can start playing by a new set of rules. In the meantime, CD-ROMs are going to be the medium for anything over a couple of megs—and almost all substantial content beyond text is bigger than that. I guarantee that CD-ROMs will have a longer lifespan in the marketplace than the techno-dweebs prophesize. I also guarantee that the marketplace will be happier sooner if CD-ROMs were to start coming shrink-wrapped in a jewel case and nothing else.

MARY EISENHART

Software

In addition to the time-honored basics of my life (MicroPhone, a *very* old version that still does the job for me; MacWrite Pro, more or less cryonically suspended at Claris, but still the best-designed mailmerge in the known universe, and the interface I've grown to love over the years; and FileMaker Pro, whose new relational version, due Real Soon Now, I await with bated breath), I've got some new favorites.

Netscape Navigator for one—easy, intuitive Websurfing.

Bring in this ad and get a free surprise gift!

And then there's WebStar.

With Paul Hoffman handling the more serious tech stuff, we set up our Web site on a Macintosh (actually, the middle-aged IIfx I bought from Matthew Leeds several years back, though it will probably be running on something a bit more zippy by the time you read this) using a copy of MacHTTP he'd acquired at a trade show. When its commercial upgrade, WebStar, came along, we went for it.

We are very, very pleased. It is easy for a Mac user like myself to maintain the site (though it helps to have somebody a bit more net-savvy set it up), and considering that this whole office runs on Macs, this is a huge payoff. We'll have a lot more to say about all this in 1996 as we install new capabilities. (WebStar comes from StarNine Technologies, 510/649-4949.)

Must-Read Books, Especially If You're Even Thinking About Starting A Company

David Packard's *The HP Way: How Bill Hewlett and I Built Our Company* (HarperBusiness, $17.00 hardcover, ISBN 0-88730-747-7) is a compelling, unpretentious narrative of Bill 'n' Dave's adventures after they followed Stanford professor Fred Terman's advice to start their own company back in the Depression days. Many Hewlett-Packard legends are retold, as well as the philosophical underpinnings of what came to be known as The HP Way.

Fiftysomething years later, that unique blend of rigorous integrity, technical excellence, respect for employees, and community service represents the heart and soul (to say nothing of the business model) of what's good about the industry, and many a fine company has sprung from its roots.

By coincidence, at the same time I was reading Packard's book I was also reading Jerry Kaplan's *Startup: A Silicon Valley Adventure* (Houghton Mifflin, $22.95, ISBN 0-395-71133-9), and I've got to say, not all the changes of the last few decades have been for the better. Contrasting the rock-solid integrity of '30s-style HP with the volatile swim-with-the-sharks culture in which Kaplan's GO had its short dramatic life is more than a little disheartening, though Kaplan tells an engaging tale, and GO's fortunes serve as a valuable object lesson in the ways of the VC-funded startup.

Another book no fledgling entrepreneur should be without is *The Autodesk File* by John Walker, which of course hasn't been a physical book for some time. However, through the miracle of Web publishing you can now visit Walker's utterly awesome Web site, *www.fourmilab.ch*, choose *The Autodesk File* from among the numerous options, and read a wealth of internal documents chronicling Autodesk's fortunes from its inception to Walker's departure last year. You'll encounter the mixed benefits of going public, the joys of dealing with a willfully clueless biz-press, the adventure of all-night drives to COMDEX, and the many other experiences that came to a bunch of programmers who decided to build the kind of company they'd like to work at.

The rest of the site is no slouch either—it's a perennial tenant of many, many hotlists.

Practically anything by Guy Kawasaki (*The Macintosh Way*, *Selling the Dream*, and his most recent book, *How to Drive Your Competition Crazy*—Hyperion, ISBN 0-7868-6124-X, $22.95 hardcover) is a valuable resource for often-hilarious tips on chutzpah and guerrilla marketing.

Even for the knowledgeable computer user, it's often a formidable challenge to shop for new equipment

—it's easy to get overwhelmed by options, and it's not always easy to find the right product or service at a time and place convenient to you.

To assist you in your techno-shopping quest, we're proud to offer this year's Reseller Guide, with more and better info to help you find what you need. As in previous years, we list dealers and service providers alphabetically by city; a cross-indexed list of vendor-authorized service providers begins on page 86.

In response to an excellent suggestion we received from a reader last year, we now also include a listing of dealers by specialty, so that if you're looking for CD-ROM drives or printers, you won't have to wade through pages and pages of LAN consultants to find them.

And, in keeping with the fact that more and more of us are spending a major portion of our lives online, we also provide listings of resellers' Web page and email addresses, so you can do your shopping in cyberspace.

Finally, don't forget our MicroTimes Quotation Hotline on page 32—it's another convenient way to shop from the comfort of your home or office.

Introducing The

MicroTimes Quotation Hotline

The Free, Convenient And Easy Way To Receive Pricing Quotations On All Your Computer Needs!

COMPUTER SHOPPING MADE EASY

The MicroTimes Quotation Hotline: It's Free, Easy and Convenient!

Whether you work for a large corporation or are buying for your personal use, the MicroTimes Quotation Hotline can help you gather pricing ***Information Quickly, Easily and for Free*** from a wide variety of computer resellers through the support of *MicroTimes* magazine.

Just fill out the form on the opposite page so you can receive information directly from our advertisers on the exact computer products you are interested in. Our advertisers will respond to your requests directly by fax, phone, mail, or e-mail...whichever way you choose.

To ensure accuracy, please read the following information and instructions:

1. All requests for quotation must use the form attached so that the Optical Reading software (OCR) can read it accurately. Do not send requests for quotation on your own letterhead because the software will not read any other text except for the text areas provided in the form.

2. Please fill in all the information legibly. By filling in the boxes neatly and legibly our OCR software can read your requests for quotation accurately. This will also ensure that your request is easier for advertisers to respond to your needs.

3. Do not cut inside the dotted line.

4. If you are asking for multiple systems and/or computer products in the same category but with different specifications, please use additional forms. This will ensure that your requests for quotation will be responded to accurately and without any confusion from *MicroTimes* advertisers.

5. Be familiar with the particular computer products you are interested in. Be specific about the various products, system processors, speeds, hard drive sizes, features, as well as the particular configuration that you are interested in. This will ensure that you get an accurate response.

When You're Finished, Please Fax The Completed Form To:

1-800-496-8008

To accurately process your quotation request, please print like the example to the right, without touching the box sides. Thank you.

Please shade circles like this > ●

To Receive Personal Quotes On Your Computer Needs From Our Northern Cal. Advertisers, Fill Out & Fax In This Form

MicroTimes *Quotation Hotline*

Fax forms to: 1-800-496-8008

19777

DIRECTIONS: Please Do Not Use A Cover Sheet. Only legible and completed forms can be processed. You may make copies of this form for multiple requests. Copy at 100% of actual size, do not reduce in size. When you fax your form(s), you may want to note that the forms have been placed properly into the fax machine to avoid faxing the form's backsides. Shade or fill in any circles that apply and print neatly within the boxes without touching the box sides.

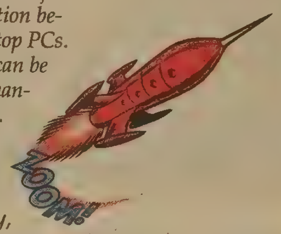
UPGRAD

Portable Upgrades

NEW!
AIRport

Introducing the AIRport™ 2000 kit, for quick, wireless infrared file transfer and synchronization between notebooks and desktop PCs. Now updating your files can be as easy as changing TV channels with a remote control.

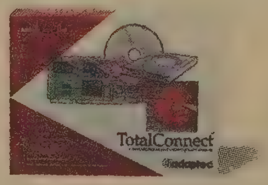


For PCMCIA connectivity, the 16-bit SlimSCSI® kit is the best way to take advantage of the fastest portable peripheral connection—up to 2MB per second. It's complete with a 3 foot cable and Adaptec® EZ-SCSI™ software.

MiniSCSI EPP
MiniSCSI Plus

Upgrade your portable with up to seven SCSI peripherals via the parallel printer port with the MiniSCSI™ Plus kit. Or for data transfer rates of up to 1 MB/sec upgrade with the MiniSCSI EPP (Enhanced Parallel Port) adapter.

Desktop Upgrades



The Adaptec TotalConnect™ kit, with the AVA™-1515 host adapter, is an affordable solution for single users or small offices needing connection to a wide variety of SCSI peripherals—up to seven.

TotalCD
adaptec

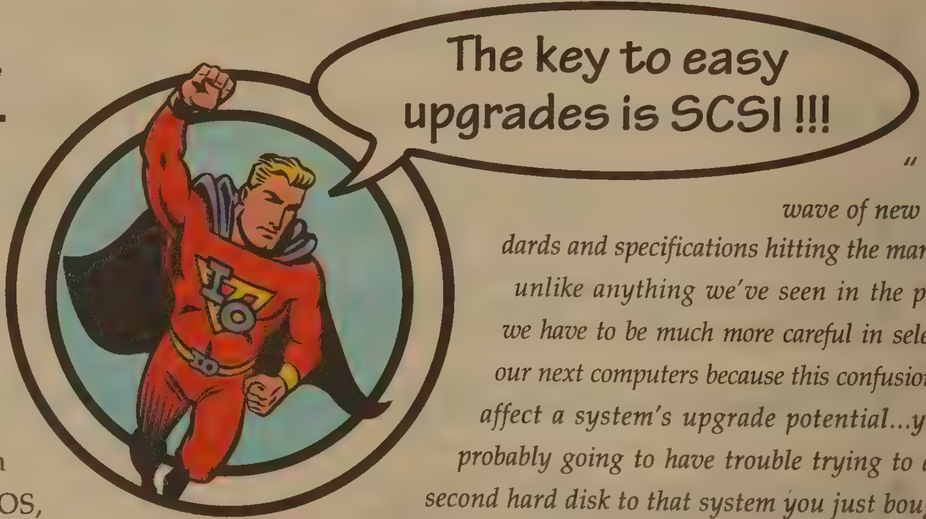
The TotalCD™ kit, with the AVA-1505 host adapter, is an affordable solution for users who simply want to upgrade to virtually any Fast SCSI-2 CD-ROM drive. For both internal and external CD-ROM drives.

The SCSI Direction

The SCSI Direction™ kit with the AHA®-1522 SCSI host adapter connects up to seven SCSI-2 devices. Including audio, data and photo CD-ROM, removable media, magneto-optical, hard drives and scanners. All on one I/O slot.

SCSI delivers a wide range of peripherals.

For over a decade SCSI has been the performance I/O choice on the PC. And now it is becoming the easiest way to upgrade. With SCSI, adding peripherals is quick and easy. Just plug in the peripheral and install the related software. SCSI can support up to seven peripheral devices and is compatible with all current application software and DOS, Windows® 95, Windows NT™ or OS/2®.



The key to easy upgrades is SCSI !!!
I/O

"The wave of new standards and specifications hitting the market is unlike anything we've seen in the past.... we have to be much more careful in selecting our next computers because this confusion will affect a system's upgrade potential...you're probably going to have trouble trying to add a second hard disk to that system you just bought...

John C. Dvorak,

PRINTER
CD-ROM

PRODUCTS

Performance Upgrades

SCSI Master
adaptec

The SCSI Master™ kit, with the AHA-1542CP card, is the hero of all SCSI host adapters for virtually any ISA PC. It delivers high overall system performance for multitasking operating systems like Windows 95 and OS/2 Warp.

PCI
SCSI Master
adaptec

This Adaptec PCI SCSI Master™ has already improved the performance of over one million PCI/Pentium-based PCs. With our PhaseEngine® RISC processor you'll be reaching transfer rates faster than a speeding bullet.

NEW!
PCI Ultra Wide
SCSI Master
adaptec

The PCI Ultra Wide SCSI Master™ kit is the fastest SCSI ever! Use it now for super fast PCI performance. And, when you upgrade to UltraSCSI peripherals, you'll be doubling the transfer rates and the bandwidth. For four times the I/O muscle.

Build a Better Server

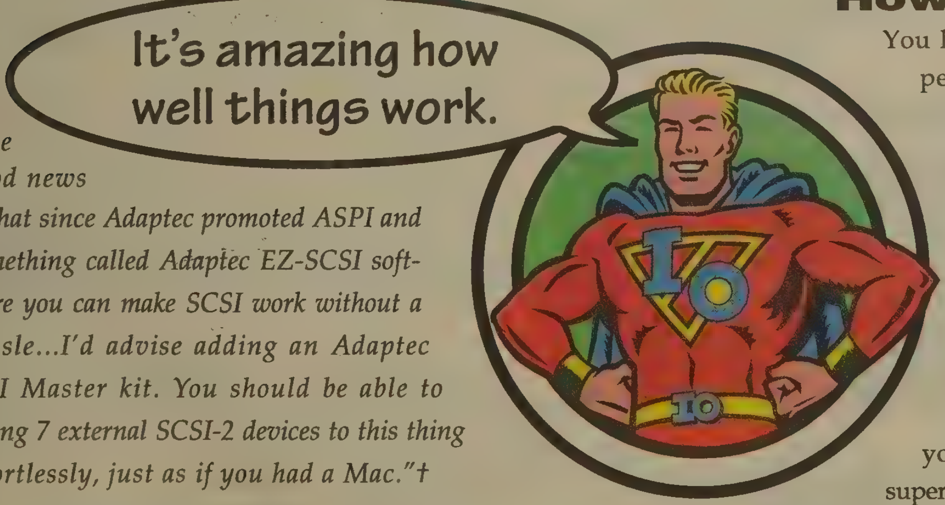
AHA-3940
adaptec

The AHA-3940 card unleashes server I/O performance with PCI multichannel SCSI. With two I/O channels, data transfer burst rates can reach up to 133 MB/sec. Each channel is powered by its own PhaseEngine® RISC processor to optimize performance and response.

Now that you're leaping buildings in a single bound, you're ready for remote SCSI management. Adaptec CI/O™ software remotely monitors and manages SCSI peripherals from any Windows® desktop. So you can keep track of the server down the hall, or across the world.

NEW!
AHA-3985
adaptec

Until now RAID 5 was too pricey for smaller sized LANs. That's why we introduced the AHA-3985 RAID adapter. Our unique design eliminates the need for the costly microprocessors and memory of conventional RAID controllers—without sacrificing performance.



It's amazing how well things work.
IO
IO

The good news is that since Adaptec promoted ASPI and something called Adaptec EZ-SCSI software you can make SCSI work without a hassle...I'd advise adding an Adaptec PCI Master kit. You should be able to string 7 external SCSI-2 devices to this thing effortlessly, just as if you had a Mac."†

SCSI

How to Buy:

You have a choice. So ask your dealer for a SCSI peripheral. Whether you're buying scanners, high-capacity hard drives, CD-ROM drives or tape drives. CD-recordables, magneto opticals, or removable media drives. External or internal. Make sure it's a SCSI peripheral.

To find out where to buy, for product information, or to find out more about SCSI, step into the nearest phone booth and call **1-800-804-8886 ext. 6639** now. For faxed information dial **1-408-945-2570***. Or perhaps you would prefer to read about your favorite super hero while you surf the net. To visit our home page type **http://www.adaptec.com**

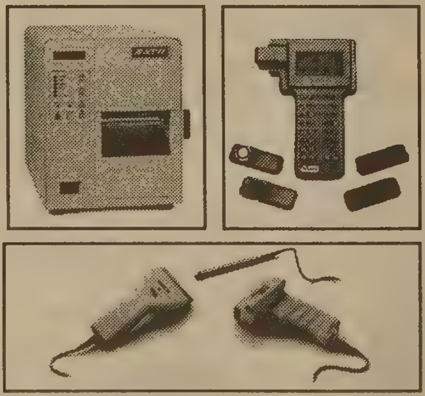
BAR CODE IS OUR SPECIALTY

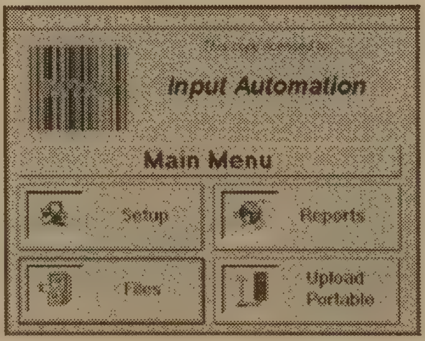
Since 1985, Input Automation has been a single source for all your barcode needs; Hardware, software, consulting, and system design. Our philosophy is based on two principles: high quality industrial products, and the best technical and sales support available.

HARDWARE
- **SCANNERS:** CCD, Laser, Handheld, Fixed Mount
- **DECODERS:** Keyboard, Serial, Integrated w/Scanner
- **PRINTERS:** Thermal Transfer and supplies
- **PORTABLES:** Various configurations, RF

SOFTWARE
- **WINDOWS TRACKING SOFTWARE**
- **ASSETS/INVENTORY/DOCUMENTS**
- **LABOR TRACKING/WORK IN PROCESS**
- **OFF THE SHELF OR CUSTOM APPLICATIONS**



Input Automation is a Value Added Distributor for such manufacturers as Welch Allyn, Opticon, SATO, Videx, Percon, Strandware, and others. We offer COMPETITIVE RESELLER PRICING. Call to see our showroom or to speak to a sales representative.



If you have a tracking need, be it tracking of assets, documents, people, inventory, tools, etc..., Input Automation's ONTRACK was created for you. Utilizing barcode technology for data collection, ONTRACK provides database management, queries, transaction history, reports, and more. Source code available.

Two Great Offers!

EMPLINK 900

A Complete Corporate Internet, World Wide Web and E-Mail Server including DSU Router.

$4500

TOTAL TURNKEY PACKAGE.

The first Internet server to combine hardware, software and a router with built-in CSU/DSU, plus security audits and filters.

ABSOLUTELY NO UNIX KNOWLEDGE REQUIRED.

It's as simple as using a Macintosh or Windows based Web browser.

FLEXIBLE CONNECTION

It will work with either a leased or frame relay line at speeds from 56-Kbps to optional 384-Kbps.

INSTALLATION IS A PLUG-AND-PLAY AFFAIR.

Two cables connect Emplink 900 to an Ethernet LAN hub and a leased line.

CALL FOR A FREE SEMINAR.
510.226-4773

A Complete Turnkey System

A 486 DX 266 with 8 meg memory, 540 HD, 1.44 floppy, 28.8 modem, keyboard & mouse. It includes DOS 6.22, Windows 3.1, Integrated Web Browser, Integrated Dialer & TCP/IP Socket software. It's set to automatically dial out to one of our Internet Service Providers...
Plug in, turn on & start surfing the net!

ALL FOR ONLY

$995

PLUS 60 Days of FREE

E-Mail, Web & Internet connectivity.

DON'T WAIT!

Call us at 510.226-4773

or call one of our ISP Partners listed in this ad.

*Optional multimedia upgrades & monitors also available.

OUR SERVICE. OUR COMMITMENT

- All complete systems are assembled, jumpers and switches setup/configured, DOS V6.22, Windows V3.11,(or Windows 95) and all included software installed for testing purpose, high resolution video monitor mode tested and continously burned in for 48 hours on all components and finally interactively inspected for trouble-free operation. All systems are to be inspected by customer at pick up time.
- Most advertised standard systems have been pre-built, burn-in tested and are ready to be picked up or delivered within 60 minutes IN FREMONT MAIN OFFICE - Please allow more time for minor configuration changes. Standard delivery time is 72 hours.
- Free delivery area includes local area within 30 minutes driving distance. No delivery on weekends. Delivery out of local area will be charged up to $30 freight.
- Most components come with over 1 year manufacturer warranty - First year will be covered by UMiracle. Warranty after the first year will be covered by component manufacturers.
- While-you-wait immediate service should there be any neccessary warranty repair. If we couldn't solve the problem, another system will be built (at our discretion, if purchased within 30 days.)
- All pickups, repairs, exchanges, upgrades can be done in either Fremont, Belmont or Albany store. Original invoices & records required.

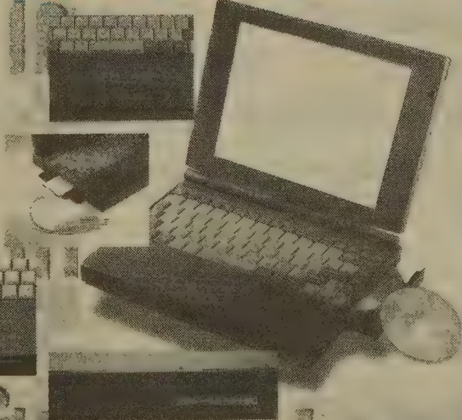
ACOM PATRIOT 8000i

ACOM PATRIOT 6000A



ACOM PATRIOT 8000i SPECIFICATIONS

CPU
- Intel Pentium 75/90/100 CPU

BIOS
- 1MB Phoenix systems Flash BIOS

CACHE
- 256KB level 2 cache monery onboard

Memory
- 8MB RAM onboard, up to 8/16/24/32MB using industrial standard DIMM memory

Display
- 32Bit PCI VGA sub-system with 1MB VRAM onbrd
- Support LCD/external CRT simultaneous display
- 10.4" VGA DSTN DualScan color LCD
- 10.4" VGA TFT ActiveMatrix color LCD

Data Storage
- Built-in one 2.5" 540MB harddrive and up
- Built-in one removeable 3.5" 1.44MB FDD,
- FD replaceable with 5.25" 2X/4X ATATPI IDE CD-ROM

PCMCIA
- Built-in 2 PCMCIA type-II slots or 1 type-III slot (type IV)

I/O Ports
- 2 x9 pin serial ports (16550 UARTs)
- 1 x25 pin parallel port (EPP/ECP support)
- 1 x15 pin external monitor port
- 1 x 15 pin MIDI/joystick port
- 1 x 6 pin PS/2 keyboard/mouse port
- 1 x RCA composite video port
- 1 x 4 pin mini-DIN S-video port
- 1 x200 pin docking interface

Wireless Link
- Built-in IrDA compatible HP infra-red transmitt module

Audio
- Built-in speakers and microphone
- Built-in 16bit Vibra audio compatible with Sound Blaster 16 and Windows Sound System
- Line-in, Line-out and external microphone jacks

Pointing Device
- Built-in PS/2 capacitive touch-sensitive trackpad

Keyboard
- 86 keyboard with support for all keys of an AT-enhanced keyboard inverted "T" cursor control keys.

Power System
- Auto-sensing 110V-240V AC adaptor
- Removeable & rechargeable 33.6Wh NiMH battery
- Second battery pack can be installed in place of FDD

Dimemsion
- 9.25"(D) x 11.8"(L) x 2.04"(H)

Weight
- 6.2LBS (with battery)

Optional devices:
- 5.25" 2x/4x ATAPI IDE TEAC CD-ROM drive
- MPEG-1 playback module
- Car adaptor

ACOM PATRIOT 6000A SPECIFICATIONS

Our **Internet** *Means* **Business**™

Web Publishing Solutions
Offer your products and services to a world-wide audience. Our ***BusinessWeb Account*** gives you all the tools you need to create a corporate Web presence for only $60/month.

For more robust needs, collocate your own server at Aimnet's new 11,000 sq. ft. headquarters in Santa Clara. Make your Home Page the equal of the world's largest corporations without any special equipment or phone line charges at your office!

Let our Web Authoring professionals give your Home Page the look you want and make your information easy to access.

Software Solutions
Aimnet's pre-configured software makes it easy to get connected. Access e-mail, the Web, newsgroups, FTP, Telnet, and more. OEM inquiries welcome!

Dial-Up Solutions
Aimnet's new ***$3.95 Account*** gives you three hours of access each month for only $9.95 setup and $3.95 per month. Additional time is only $1.50/hour! Our $30/month ***PPP/SLIP Plus Shell Account*** gives you unlimited hours plus 40Mb of disk space.

Aimnet offers free PC and Mac software, local-call access throughout the San Francisco Bay Area and great customer support. All accounts support up to 28.8 modem speed.

Aimnet also offers ***64k and 128k Dial-up ISDN.***

Dedicated Line Solutions
Aimnet can provide you with the dedicated speed you need! Accounts include:
- ***64k and 128k ISDN for LAN***
- ***128k and 384k Frame Relay***
- ***Fractional and full T1, 10MB and T3***

Aimnet's network infrastructure is the best in the business. Don't settle for less!

Installation and Support Solutions
Want to get access without hassles? Aimnet will provide you with the hardware you need, order data lines if necessary, and make sure you get connected quickly. Aimnet also has customer support personnel and network technicians standing by to provide guidance and answer your questions!

To Internet or not to Internet? That is not the question. Here are the questions...

How do I choose ISP?
What type of connection/bandwidth do I need?
How do I connect to the local network?
What security protections can I implement?
What is proxy server? Firewall? Security token?
How many calls & how long does it take me to
- Arrange phone company's installation?
- Select the right ISP?
- Apply for the Domain Name?
- Get the right connection setup from ISP?

How many hours or days do I need to install
- Communication hardware?
- Communicaiton software?
- Server driver?
- Client driver?
- Client Application?
- LAN to Internet interface?

Shall I shop all the parts all over the place?
Shall I go see Network Assoicates for a peaceful turnkey service and save all the trouble?

Fast. Faster. Fastest. InterNex!

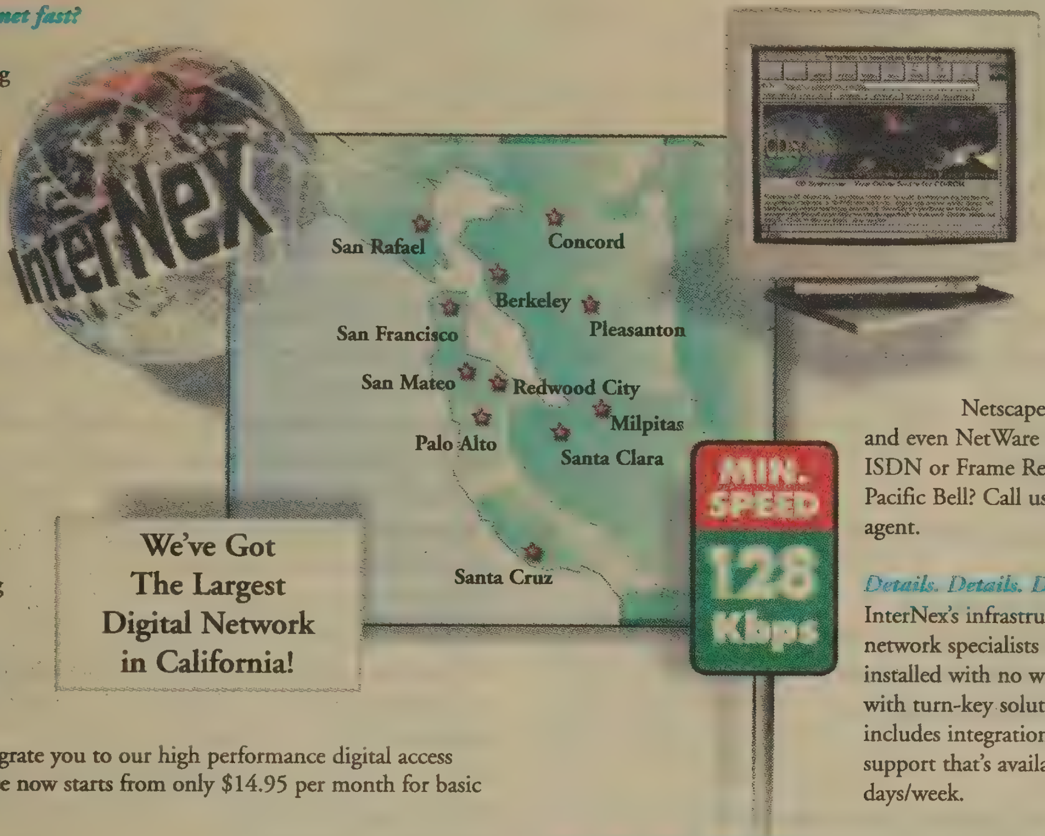
Helping Businesses Do Business On The Internet℠

Want to get on the Internet fast?
No waiting on slow connections? Want blazing high performance? Talk to InterNex. We specialize in high-speed digital Internet access: that's all we do, and we excel at it.

How fast is fast?
InterNex offers:

- ISDN (128 Kbps for only $14.95/mo.!)
- Frame Relay (28 Kbps to 1.544 Mbps)
- Dedicated leased lines, SMDS and ATM (1.544 Mbps to 45 Mbps and higher)
- Hot Web server hosting on our fiber hub

With speed options like these, why are you still using that old analog modem? InterNex can migrate you to our high performance digital access tomorrow! And our service now starts from only $14.95 per month for basic ISDN access!



We've Got The Largest Digital Network in California!

One-Stop Shopping
Need hardware? InterNex can set you up with everything. A Motorola ISDN modem for home use? Got it. Ascend and Cisco routers? Got those, and we ship them *preconfigured!* Need software? InterNex has everything from home Web surfing setups with Netscape, to Web server packages, and even NetWare and e-mail gateways. Need ISDN or Frame Relay service ordered from Pacific Bell? Call us. We're an authorized sales agent.

Details. Details. Details.
InterNex's infrastructure of professional network specialists are there to help you get installed with no worries. We can provide you with turn-key solutions for everything. That includes integration, service, training, and support that's available a full 24 hours/day, 7 days/week.

Coverage and Competence
InterNex has the largest digital network in California, giving you seamless dial-up connectivity from almost anywhere. Unlike other providers for whom digital access is a sideline, InterNex concentrates exclusively on ISDN speeds and higher. Because we specialize, we have the expertise in digital that other providers lack. You'll be up and running smoothly in record time.

Serious Network Muscle
Our network is built to match, using fast fiber optics and quadruply redundant connections to the Internet backbone. InterNex designed its network to satisfy the mission-critical needs of demanding businesses. Some of Silicon Valley's largest corporations rely on InterNex for their Internet feeds. They trust InterNex's high reliability. You can too.

One Size Does Not Fit All
InterNex also provides an array of custom business packages. We can bundle multiple services for one company: telecommuting, virtual private networks, Web hosting, etc. InterNex can easily put an entire corporation on line: it takes only a single telephone call.

Call Us On It.
Have more questions? Phone us now! We even run weekly seminars and facility tours! Come on by: learn more about our unique scaleable network technology, see the latest equipment demonstrated, and learn more about the InterNex advantage.

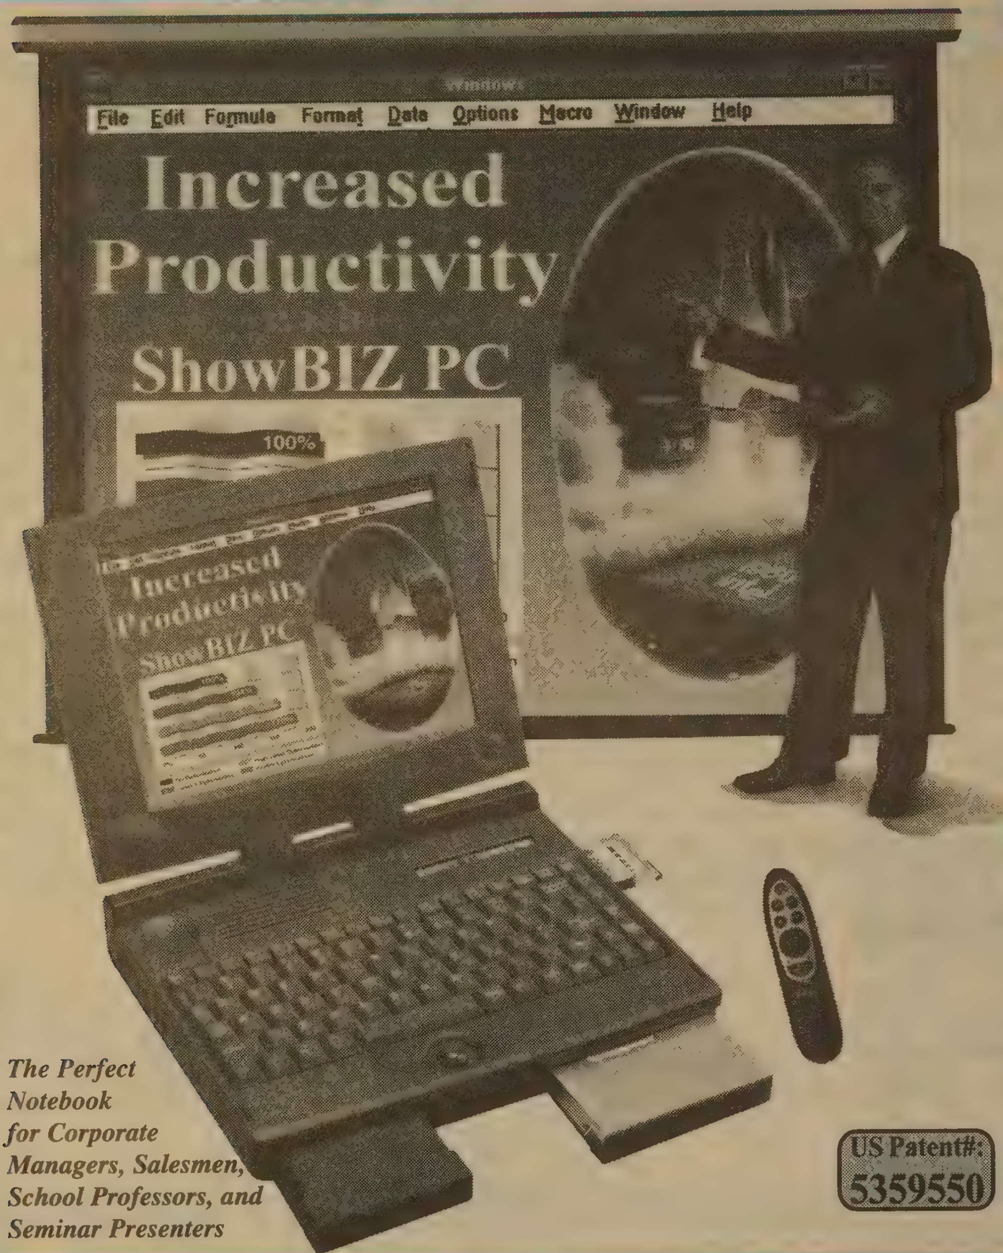
Wedge ShowBIZ, the Presentation Notebook with 6 ft. screen



The Perfect Notebook for Corporate Managers, Salesmen, School Professors, and Seminar Presenters

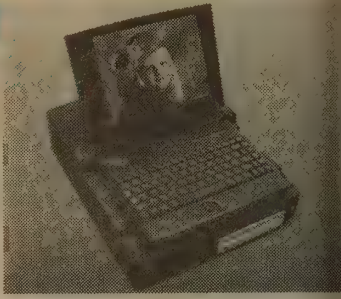
US Patent#: 5359550

✔ It's a Notebook

"The ShowBIZ PC is a faithful mobile assistant. While waiting in the airport, Ican make last minute modification to a business proposal, send an email to my co-worker, access on-line service for latest news, and fax a quotation to my client. When I have accomplished all of these task, I treat myself for a game of golf."

- Fred Klemmt, Aptek Associates - Mountain View, CA

✔ It's a Workstation



"The ShowBIZ adapts to the way I work. It accompanies me through customer consultations. And immediately returning to my office, I can produce the advertisement by setting the ShowBIZ on the docking station which is configured with Optical CD Drive, a large 4.3 GB SCSI Hard Disk, and a Scanner. It is so flexible and expandable that it hass replaced my powerful desktop and has given me an edge in my field."

- Bob Peters, David Advertising - Cleveland, OH

✔ It's a Projection Panel

" Thanks to ShowBIZ, I can prepare, create and present my seminars much more effectively. It is great to watch my audience eyebrows rise when they see me projecting a large display interactive live multimedia presentation. They go wild when I display a chart being updated on-the-fly or when an animation comes splashing on the screen with special sound effects. With ShowBIZ, I will always have attention getting presentations..."

- John Halbert, Impact Seminars - Brentwood, TN

ShowBIZ PC Technical Highlights

- **Detachable Display Backpanel to be used as PROJECTION PANEL with an Overhead Projector (Easy Setup)**
- Supports **ALL 486** and **5x86-100MHz** Microprocessor
- Flexible memory configuration 4/8/12/16/20/32MB
- Removable 1.44MB FDD - Replaceable for **second battery** module
- Removable 340/510/810MB/**1.3GB** Hard Disk Drive
- 32-bit VESA Local Bus Video Accelerator
- Enhanced UART 16550 Serial port, Bi-Directional EPP/ECP Parallel port
- Up to **5 hours battery life** (with dual batteries)
- Built-in Audio, Microphone, and Speaker

The Perfect COLOR PRESENTATION notebook with Complete Presentation Kit and Remote Control unit *starting ...* ***$2,999***

Welcome
to Total Technologies

We're very happy to have you join us. The type of work we do is a major source of motivation, and at Total Technologies, we strive to deliver products that are at the very leading edge of price performance. Taking pride in our products and service is a source of job satisfacition. It's not enough to satisfy our customer's needs, we really want you,, the customer, to be very delighted with our products and services. It means courteous, and "eager to please" attitudes shown by all of the "TOTAL TECHNOLOGY TEAM." It means we must always be ready to listen for problems and provide solutions. That's why I give you my 100% commitment to full satisfaction gauranteed. If for any reason you are not satisfied, I urge you to call me at (408) 734-3800 ext.260 and your concerns will be handled promptly.

Sami Shahin
President/CEO
Trans-Eagle Corporation

THE TOTAL TECHNOLOGIES ADVANTAGE.

Total Technologies is a local, national, and world wide supplier of computer hardware products. We've tailored our company to meet the very demanding needs of buyers and professionals across the country and overseas. We offer you a clear choice over the competition: Here is why...

TOTAL SERVICE.

** Total Technologies offers it's corporate accounts fast account approval and setup. Pre approved Accounts for all universities, government agencies, and fortune 1000 companies.*
** Hassle - free ordering.*
** Professional and knowledgable staff.*
** Same day will call pickup or delivery.*
** Same day shipping on most orders.*

TOTAL SELECTION.

** Total Technologies offers the largest selection of Hard drives, Tape backups, Opticals, Multimedia, Recordable CD's, Memory, Monitors, Systems, and More.*
** Full line of high end Recordable CD ROMs.*
** High end storage devices from 200MB to 9.0GB solutions.*
** The Best brand name Computer Products in the industry.*
** 5 years warranty on most products.*

TOTAL PRICE.

** Total Technologies offers the most competitive prices in the industry.*
** local support and service.*
** Quantity pricing is allowed.*
**Dealers discounts are available.*
** We will match or beat any advertised price in this issue. (Applies to same; verifiable and in-stock items only.)*
** Corporate discounts are available.*

And Remember...

"If we cannot save you money, we don't deserve your business."

Novell Network Server Solutions

MachServer™ - The Right Server for the Right Application

ServerStart™ Allows You to Create the Ideal Network File Server that Maximizes Productivity and Minimizes Downtime, While Reducing the Cost of Owning a Network by as Much as 35%

ServerStart™ Provides Super Efficient Netware® Operating System with Core Services, Increased LAN Performance, Unsurpassed Boot & Data Virus Protection, Easy to Use Network Management Tool & Outstanding User Support (free technical support 1-800-637-2699))

The ServerStart™ Platform integrates:

- Novell NetWare 4.1 (5 to 1000 users), - a 32-bit Network Operating System
- EtherStream PRO/10 for Server & EtherStream PRO/10 for Workstation - 3 media, 16-bit ISA ethernet adapter
- LANScan - a Windows-based network management tool
- NetShield - virus protection for Novell® file servers

For Corporate Network Solutions, Please call Ramon at USM Sunnyvale, 408-738-8291.

MachServer™ Hardware Platform integrates:

- The best optimized server architecture designs from US design technology, American Megatrends, Intel and ValuStream.

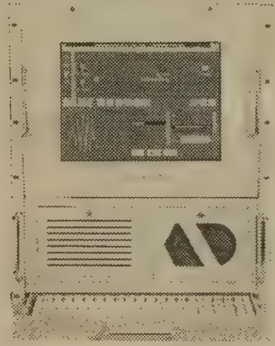
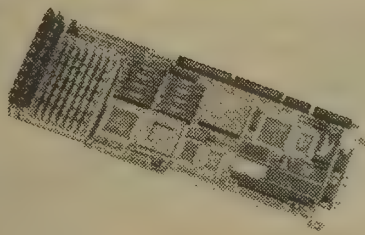
PEAK-510/510S PCI/ISA PENTIUM® SBC

- Full-length Pentium® 75-133 CPU Card, Award BIOS
- 4X72 PIN SIMM sockets (256MB Exp max) EDO supported
- 256K Cache, Burst SRAM supported SIS Chipset
- Built-in Adaptec 7870 PCI wide-SCSI (510S only)
- Built-in PCI IDE, FDD, High Speed I/O (2S, 1P)
- Onboard generated 300-500ms power good signal
- Watchdog timer 0.5sec to 64sec. Timeout interval
- ISA-MAX feature with BP-140M Dual Backplane
- Dimensions 338 x 122 mm, 600g



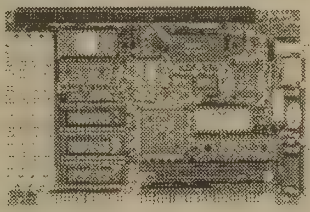
19" RACKMOUNT SYSTEMS

- RPC-204 19" Industrial PC Case, 20 Slots (Dividable) Passive Backplane, 300W PS Three Fans Six 3.5" Drive Bays, 19"x24"x7"
- RPC-201 19" Chassis, 14 Slots passive backplane, two fans, 3x3.5", 1x5.25" bays, 19"x17"x7"
- KB201 19" RackMount K/B Drawer with K/B
- PIK-220 19" RackMount Monitor Enclosure, Holds 12" to 14" Monitor



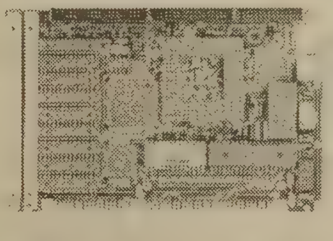
AX8045 486 AIO SBC VLB VGA

- Full Length 80486SX/DX/DX2 CPU
- 2x72 Pin, 8x32 Pin SIMM (1-64 MB)
- AMI BIOS, 256K Cache
- Supports PC/104 Expansion Bus
- Watchdog timer 0.5-250 sec.
- Onboard Keyboard & Ext Power
- Dimensions 338x122mm



AP-410A 486 ALL-IN-ONE SBC

- Half Sized 80486SX/DX/DX2/DX4
- 2x72 Pin, 8x32 Pin SIMM (1-64 MB)
- AMI BIOS, 256K Cache
- Built-in 2xIDE, FDC, 2S & 1P
- Watchdog timer 0.5-5 sec.
- Onboard Keyboard & Ext Power
- Dimensions 185x122mm



AP-300A AIO 386 SX SBC

- Half Sized 80386 SX-40
- 4x30 Pin, 512K-16MB
- AMI BIOS, 0K Cache
- IDE FDC, 2S/1P, PC/104 Bus
- Socket for 1.44MB Flash/EPROM
- Watchdog timer 0.5-5 sec.
- Onboard Keyboard & Ext Power
- Dimensions 185x122mm

Why the CyberSpace™ Card?

The CyberSpace™ cards let your computer take advantage of all the speed an ISDN phone line has to offer:

- ✈ Fastest connect time possible with ISDN (within about 5 seconds)
- ✈ Ultra-fast file transfers using a 128K connection.

The CyberSpace™ Card is configurable and ships with free TCP/IP software (a $25 value). With additional freeware or shareware applications that you can download from the Internet, you can implement client/server applications or set up a peer-to-peer environment, such as:

- ✈ Internet dial-up Client (for applications like Netscape, Eudora, FTP, and USEnet)
- ✈ WWW Server, E-Mail Server, or FTP Server
- ✈ Peer-to-Peer node to bypass the Internet

ISDN*tek is a leader in compatibility, and boasts one of the best interoperability reputations in the market today in successful dial-up capability with the following vendors: 3COM, Adtran, Ascend, Cisco/Combinet, CoSystems, Digiboard, Farallon Computer, Flowpoint, Gandalf, IBM, Intel, ISDN*tek, JRL Systems, KNX, Microsoft, Motorola, MPX, Network Express, NetCS, Novell, Shiva, Silicon Graphics, Skyline Technology, Stagecoarch, US Robotics/ISC, and Xyplex.

http://www.isdntek.com

The CyberSpace™ card is 56K to 128K capable. 128K performance requires the TCP/IP software that is shipped with the card and depends on phone company and Internet Service Provider equipment. Shipping and handling costs are extra. California residents add local sales tax.

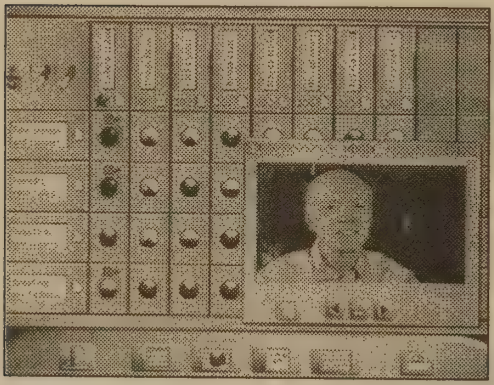
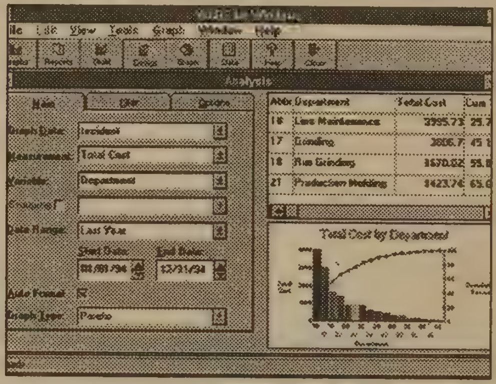
CRUSH



CRUSH, named after the methodology devised by marketing guru Regis McKenna, is a set of strategic marketing tools that will help you develop, organize, and present the information you need to stay ahead of the competition. Developed for marketing and sales professionals, competitive analysis, strategic planners, and entrepreneurs, CRUSH leads you step-by-step through each phase of analyzing your market to creating winning strategies. The core of CRUSH is a competitive database that allows you to track competitors and trends, and identify real solutions to real problems—formulating goals, strategies, and responses to competitive threats. ($499, hybrid CD-ROM for Macintosh, PowerPC, and Windows) Hands-On Technology, 577 Airport Blvd., Suite 450, Burlingame, CA 94010. (415)579-7755. URL: *http://www.HOT.sf.ca.us* .

Ware For Windows 2.0

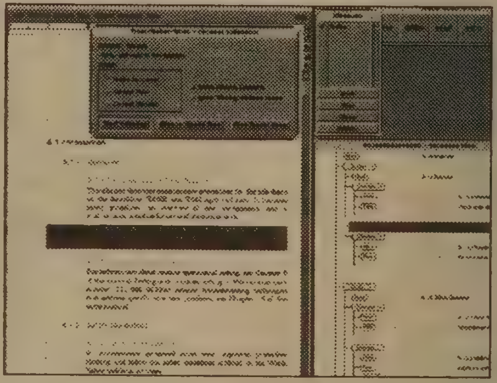


Ware (Worksite Accident Reduction Expert) for Windows is a collection of enterprise-wide software tools and services that reduce injuries and can help turn OSHA record keeping requirements into cost prevention opportunities. With WARE, managers gain a thorough understanding of their company's safety performance in a continually improving safety process. This corporate-wide injury/illness knowledgebase gives managers the ability to analyze, consolidate, and standardize existing safety data across departments. Not only does WARE generate forms and reports, but it also statistically interprets injury data. (Single user, $2400–$5000; network prices, $5000 per workstation; pipes for importing data, $5000) WorkWell Health and Safety Systems, 3977 Research Park Dr., Ann Arbor, MI 48108. 1-800-860-7741.

Job Central

This work flow management package allows a group of users to collaborate on all aspects of completing a job. Users can log in jobs, establish and revise status and schedules, allocate resources, track budget versus actual, and bill their time and expenses. A mail system as well as remote dial-in capabilities enable Job Central to act as the main engine for a virtual office. A key feature of the software is an automatic scheduler that allows users to instantly change the status and due date of a specific job activity and broadcast the changes to an entire work group. It will run on Mactinosh PowerPC, Windows 95, and Windows NT and is available in single or network versions. ($2500 single-user version; $595 per user over five users) Honeybee Software, Inc., 245 Victoria Ave., Suite 800, Westmount, Québec, Canada H3Z 2M6. (514)989-5030, 1-800-667-1233.

FrameMaker+SGML



FrameMaker+SGML, which succeeds Frame's FrameBuilder and SGML Toolkit products, is a combination of page composition, text editing, graphics, interactive structure validation, and visual SGML support in an intuitive WYSIWYG environment. Features include support for native SGML, hierarchical style definition, automatic generation of ID properties when referencing from one element to another, and consistent text and graphics import and export capabilities across platforms. SGML provides a

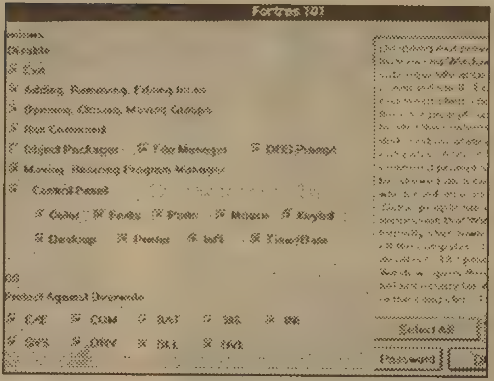
Compton's Reference Collection

COMPTON'S REFERENCE COLLECTION

Compton's Reference Collection provides reference tools for home office and small businesses, including pre-written legal and business forms. Its resources include *The New York Public Library Desk Reference, The Macmillan Dictionary of Quotations, Compton's Concise Encyclopedia*, and several widely recognized business references such as JK Lasser's *Legal and Corporate Forms for the Smaller Business*, Strunk & White's *Elements of Style, Resumes for Better Jobs*, and *The Office Guide to Business Letters, Memos & Reports*. Search capabilities, originally developed for *Compton's Interactive Encyclopedia*, help users locate information more efficiently, with options for searching by reference source across multiple works by general subject matter, by geography, or by time frame. Also included is Pro Phone's *Home Phone*, two CDs containing seventy-two million residential listings from US white page directories nationwide. ($49.95) Compton's New Media Co., 2320 Camino Vida Roble, Carlsbad, CA 92009. (619)929-2500.

Fortres 101

Fortres 101 is designed to protect any stand-alone or networked Windows or MS-DOS system from an unauthorized user. Residing invisible between users and the PC, it allows administrators strict authority over which applications can be run and which systems settings can be modified. Fortres 101 can be installed in minutes, does not alter or remove any system files, and allows flexible security over any phase of DOS and Windows operation, including the boot process, file manager, icon and group additions and modifications, system files, and DOS prompts. Fortres 101 consists of a single screen that controls all functions of the security system. In addition, the software can be disabled by an administrator without rebooting or restarting Windows, returning the PC back to its original configuration. ($295 for a site license) Fortres Grand Corp., 1-800-331-0372.



TaxTracker

TaxTracker: The Consumer's Mutual Fund Portfolio Manager is Windows-based software that enables individual investors to monitor the vitally important aspects of their mutual fund portfolios, including current tax liabilities, actual historical returns, and ongoing asset allocation. Mutual fund portfolio tools include a "sell order" function that makes it easy to use its indentification method, prints complete reports detailing realized gains and losses, and determines the actual time-weighted internal rate of return for an overall portfolio of funds. The *User Guide* provides tax saving strategies. In addition, TaxTracker offers three other reports to manage mutual fund portfolios—including a pie chart to show the current portfolio asset allocation. The program will also be included with *Christopher A. Lowry's Mastering No-Load Mutual Funds: The Road Map to Investment Success* to be published in January, 1996. ($49) NFSA, Inc., 3432 Denmark Ave., P.O. Box 211, St. Paul, MN 1-800-Y-NO-LOAD, (612)456-0106.

Smart Moves Personal Relocation Guide v2.0

SmartMoves Personal Relocation Guide v2.0 is a Windows-based program designed to assist people who are relocating. In addition to helping the user find the specific neighborhood that best meets their preferences and requirements, the product also provides answers to how the move will impact personal finances with two new features. The Cost-of-Living Comparisons feature creates a personal file that compares the cost of living in your new location with your current home. The Move Planning feature calculates how much the move will cost, including how the sale of your home will impact your cash position, how much money will be needed to buy a new house, the costs/benefits of moving yourself vs. hiring professional movers, and more. ($39.95, CD-ROM or floppy disk) PHH Technology Services, 10955 Lowell Ave., Suite 210, Overland Park, KS 66210. (913)661-9755, 1-800-210-8852.

Janna Contact for Windows 2.0

CONTACT
Janna
CONTACT

Janna Contact was designed to offer Microsoft Office users a powerful and easy-to-use contact and document management system. It gives users control over all of their contact information, documents, and schedules. Faxes, letters, spreadsheets, business presentations, voice notes, and full-motion video can be stored with contact information. Personalized documents can be printed, faxed, or emailed for selected contacts. Version 2.0 expands upon the original product with many new features, including Microsoft Mail integration, Microsoft Schedule+ synchronization, simplified document management, full OLE support, workgroup scheduling, and "call-in" recognition. ($99) Janna Systems, Inc., 3080 Yonge St., Suite 6060, Toronto, Ontario, Canada M4N 3N1. (416)483-7711.

NEW WAYS TO WATCH BLOCKBUSTER MOVIES, KARAOKE...ON CDS!

Got a 386 & 2x CD-ROM Drive or Better?

$159* FOR: **Full Screen MPEG Card**

- Easily install this ISA card (no jumpers) to watch MPEG, VideoCD 2.0, CDi DV movies and multi-audio Karaoke CDs at 30 fps with true theater like video and audio on your computer. It'll co-exist, not replace nor do the job of your SVGA card. Don't be fooled, an SVGA card alone (even Diamond Stealth 4mb) and MPEG software cannot achieve half the quality that this dedicated MPEG card was designed to do. You have to see the difference yourself to believe it!

** Add $40 for any 2 and $100 for 10 Vivid adult CD movies*
** Add $50 for scalable overlay card version*
** Add $50 for TV output card version (NTSC or PAL/SECAM)*

LivePAGE

LivePAGE is a system of open, nonproprietary text and information management software products. It takes advantage of the structure of SGML (Standard Generalized Markup Language) to store nonstructured data like text in a SQL relational database. LivePAGE can be used for authoring, editing, viewing, distributing, and publishing. It provides database solutions in a wide range of areas: from simple electronic books to fully interactive manuals, from a local disk to a CD-ROM, from standalone to full client/server, from a simple document search to a search across many different documents and media, from simple tagging to full SGML, and from indexing a text field in an existing database to fully integrated data/text applications. The LivePAGE suite of products provides all the tools needed to manage text, graphics, and multimedia objects using the SQL relational database. The LivePAGE client runs under Windows. ($995 for the Developers Kit, $295 for additional Browsers) Inforium, 158 University Ave. West, Waterloo, ONT N2L 3E9 Canada. (519)885-2181. Email: *info@inforium.com*; URL: *http://www.inforium. com/inforium.htm* .

Web Software

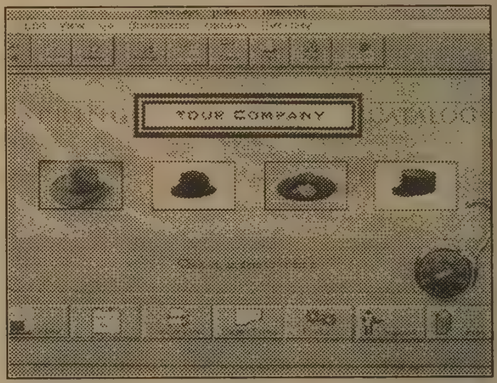
WebWorks Publisher v2.1

WebWorks Publisher helps technical publishers working with FrameMaker to automate the task of publishing professional quality documents on the World Wide Web. WebWorks Publisher translates Framemaker text and graphic formats into HTML, GIF, and JPEG files, while supporting hypertext links and cross references. It allows for full customization and user-designed styles plus interchangeable style conversion sets to output documents to any tagged file format. WebWorks provides external URL hyperlinks to text, graphics, forms, audio, and video. It supports MS Word, WordPerfect, Interleaf, and other popular file formats through FrameMaker file import. The new version provides other product enhancements such as: support for FrameMaker Variables, efficient memory usage, improved communication interface with FrameMaker, and support for JPEG file generation. ($1295, WebWorks Publisher for UNIX; $895 for Windows or Macintosh) Quadralay Corp., 3925 W. Baker Ln., Suite 337, Austin, TX 78759-5321. (512)305-0240. Email: *info@quadralay.com* .

Tango

Tango is a full-featured visual development tool that integrates Butler SQL, EveryWare's client/server relational database management system, with StarNine's WebSTAR Macintosh Web server software. Tango lets Web adminstrators rapidly create Web pages that access Butler SQL without writing SQL or HTML code. Features supported by Tango include: simultaneously accessing of multiple related tables in a database, executing custom SQL, the ability to link multiple processes in one query document, global variables associated with each user, and more. In addition to the standard editing environment, Tango also has Query Builders. (Free with Butler SQL)EveryWare Development Corp., 7145 W. Credit Ave., Bldg. 1, Unit 2, Mississauga, Ontario, Canada, L5N 6J7. (905)819-1173. Email: *info@everywhere.com* . URL: *http://www.everyware.com* .

WebTrader 2.0



WebTrader enables instant, secure sales processing directly on the World Wide Web. This high-end Windows program allows businesses to post order forms for products and services on the Web. It then automatically processes the orders and sends the customer confirmation via email. WebTrader initiates and completes the sales process by providing a direct, instantaneous connection between vendor and customer. RSA Data's encryption security is included to insure secure transactions. In addition to the sales order form and email parsing program, WebTrader 2.0 includes: new product home page templates for services, products, and personal home pages; a lead form; a product registration form; and a customer survey form allowing the user to collect data on potential customers; register new products, and survey customer satisfaction via the Internet. ($1295) SBT Accounting Systems, Inc., 1401 Los Gamos Dr., San Rafael, CA 94903. (415)444-9000.

Personal Web Site—PWS

PWS is a Web utility designed for UNIX platforms that complements standard Web site servers by offering powerful tracking, customization, and administration functions. It takes membership Web sites to the next level of interactivity by simultaneously tracking Web site visitors and tailoring Web site content and advertising to individual needs. Its administration module lets Webmasters easily identify specific Web "surfing" patterns, allowing them not only to enhance the quality of their site but also to provide customized content. The PWS tracking system enables membership Web sites to

1995 Writers' Soapbox Awards

continued from page 22

An entrepreneur needs a lot of fervor and zeal, and Guy's the master.

On a considerably more allegorical level, check out *MYST: The Book of Atrus*, by Rand and Robyn Miller with David Wingrove (Hyperion, ISBN 0-7868-6159-2, $22.95 hardcover). Officially, this book is a prequel to the Miller Bros.' prodigiously successful game, but in its own way it contains much food for thought about world-building (not far removed from company-starting) and its attendant responsibilities and rewards. A good read and highly recommended.

ED KAHN

This past year is once again marked by a lack of essential products for the average user. Upgrades—many of which are only marginally improved over earlier versions, and in some cases are actually more cumbersome than the software they replace—flood the market.

Nevertheless, there are several products that really will change the way we use our computers. In the last year, PCMCIA slots have become almost standard on portable machines. This is a major step forward, for it allows a common interface; more and more, hardware manufacturers are taking advantage of it for modems, network cards, multimedia, additional hard drives, and other storage devices.

One of the great advantages of this interface is that we can upgrade peripherals without chucking the whole machine. On the other hand, as software demands faster and more powerful machines, PCMCIA will only marginally extend the life of a portable.

The major introduction of '95 was **Windows 95**. Like it or not, this is the platform software and hardware will work from. I suspect that the long-range benefits will be great, as PC-compatibles will eventually compete effectively with the Macintosh interface. The transition will take place over a period of time, but at least the territory has been marked out. Plug 'n' Play is still just a figment of the imagination, but I suspect that over the next year it will become increasingly real.

On the other hand, Windows 95 will eventually make all of the older software obsolete, as new releases will take advantage of the new features now possible. For now, I can find only marginal advantage to the new Windows. The true cost of conversion, by the time you upgrade all of the hardware and

> **ED KAHN:**
> WITH THE INTRODUCTION OF WHAT USED TO BE CONSIDERED HUGE HARD DRIVES, OLDER TAPE BACKUP SYSTEMS ARE SOON TO BE REPLACED. IT IS NOT CLEAR JUST YET HOW THIS VOID WILL BE FILLED.

1995 Writers' Soapbox Awards

software components, is thousands of dollars, not the under $100 price tag that is touted.

The only new product of the last year that has actually changed the way I do business is **Visioneer's PaperPort** scanner. The company is really onto something. This scanner lets you bring in documents and then print them, fax them, edit them, send them to your word processor. The newest version, just released, boasts of letting you connect through any available port—parallel, serial, SCSI—and can send the scanned file to over fifty software packages. This means that you will be able to scan in a document and send it out over email, for instance. The list of supported software is growing rapidly. This is the only product of '95 that I couldn't do without. Soon, they will have a cut-sheet feeder for the new model. By the way, they still sell the original PaperPort, so if you are on a tight budget, you can save a few bucks by buying the original product. The newest release still lists for under $400.

> **DOUG NAKAKIHARA:** I'VE HEARD OTHERS SAY THAT AT IS NOT SERIOUS ABOUT CONTINUING THE DEVELOPMENT OF THE AMIGA. HOGWASH! IT HAS SUNK TENS OF MILLIONS OF DOLLARS INTO RESTARTING THE AMIGA; PROBABLY MORE THAN IT EVER ANTICIPATED. THESE GUYS ARE SERIOUS AND ARE SPENDING THE BUCKS TO PROVE IT.

With the introduction of what used to be considered huge hard drives, older tape backup systems are soon to be replaced. It is not clear just yet how this void will be filled. The Zip drive and its competition still leave something to be desired for backing up a 1GB hard drive. Other non-tape technologies are still too expensive. Tape, even with its newest innovations, still stretches (no pun intended) to meet the new high-capacity hard drives. I suspect that by this time next year new solutions will be at hand for inexpensively backing up large-capacity hard drives.

On the software side of things, the program that has been the greatest help to me is **AddressMate**, an inexpensive Windows program that works with any of the standard word processors and makes addressing envelopes as easy as clicking on an icon. The program does lots more, including dialing my telephone, keeping my address files, and making my business cards.

DOUGLAS J. NAKAKIHARA

Pinch me...ouch! So this isn't a dream. I'm still here, alive and kicking, and the Amiga seems to be in a similar state.

Yes, companies are still making lots of cool stuff for the Amiga, a machine that was not manufactured for over a year and a half! It's hard to believe, but by the time you read this, new Amigas from Amiga Technologies, a subsidiary of Escom, should be available for sale.

From: John Gilmore

Hi Mary,
It's such a drag having to drive to the South Bay because it's so easy to find computer support down there. Thanks for making it possible for me to find a couple of potential suppliers. I'd rather do business with them anyway!
Love,
John

Not Really New

Granted the new A1200 and A4000T are not brand new technology, but their existence means that Amigas are being manufactured and, perhaps more importantly, spare parts will be available. You see, throughout this bankruptcy-circus, Amigas have been available, albeit probably as used machines. However, a big problem was the fear that if something went wrong it would be impossible or very expensive to fix. That should no longer be a problem.

A lot of people are disappointed in Amiga Technologies' (AT) initial offerings. I'm not. I'm sorry it took so long, but I think it's good they are getting their feet wet with a known commodity. AT needs to get to know the Amiga first to properly set its course for future development. In any event, I predict that demand will far exceed their initial manufacturing run—a lot of people are just glad the Amiga is back!

I've heard others say that AT is not serious about continuing the development of the Amiga. Hogwash! It has sunk tens of millions of dollars into restarting the Amiga; probably more than it ever anticipated. These guys are serious and are spending the bucks to prove it.

RISCy

AT is apparently very serious about moving the AmigaOS to a RISC chip, with Motorola's PowerPC rumored to be the likely choice. I'm a little concerned about this because of the necessary development time. Can the Amiga, as it exists now, survive for another year, or maybe two? What effect will this have on the sales of existing models? Will current software and hardware be compatible? These are some hard questions that need to be answered.

AT At Toaster Expo

AT made its first official US appearance at the Video Toaster Expo in Universal City. It is expected to make some exciting announcements. Look for a detailed report in the January issue of *MicroTimes*. I'm hoping for some real revelations, because it has been quite indecisive about the US market thus far. I think the show itself will be an education for them.

Draco At Toaster Expo

Well, yours truly has been talked into helping out at the Draco booth at the Toaster Expo. I've been working with the latest version of Draco and am extremely impressed. I've been able to consistently digitize and play back video at 90% JPEG! (This compares to around 70% using an Amiga.) The Amiga/MS-DOS/Draco floppy drive is working, as is the quad-speed CD-ROM. Performance-wise, the machine appears to be roughly twice as fast as an '040-40 Amiga.

The lack of a consistent supply of '060s is hindering the shipment of Dracos. MacroSystem is probably going to release an '040-based version as a temporary fix, at a much lower price. However, once the Draco DEC Alpha board is released, users may not

Novell Authorized Education Center

We know your NOVELL training is important to you.
And we are listening...

YOU ASKED FOR
☐ The very best instructors
☐ Quality customer service
☐ CNA, CNE, and Master CNE programs
☐ Daytime, evening and weekend classes
☐ State-of-the-art equipment and facilities

AND TEKNOWLOGY EDUCATION CENTERS HEARD YOU
☑ TeKnowlogy instructors are highly rated Certified Novell Instructors with *extensive field experience.*
☑ TeKnowlogy provides *each student* with their own Education Consultant to guide and support them in achieving their individual training needs.
☑ TeKnowlogy *offers all* Certified Netware Administrator, Certified Netware Engineer and Master Certified Netware Engineer programs.
☑ TeKnowlogy was *the first NAEC* in the Bay Area to offer the CNEvening. Now offering *Weekend CNE* programs!
☑ TeKnowlogy offers the highest quality training facilities including *one PC per student, separate classrooms and labs.*
☑ TeKnowlogy *now offers* financing for your CNE, Master CNE, and CNA training.

really miss the '060. It really depends on how successful they are in getting other developers, particularly NewTek, to support the Alpha board.

Also, MacroSystem is very close to "inking" the MacOS licensing agreement for Draco. The last hurdle is the lawyers. I am told that it has been able to run most of the mainstream Mac apps, and seamless Amiga-Mac filesharing capabilities will be featured.

DEC Alpha For Amiga

MacroSystem has plans to release a Zorro III DEC Alpha coprocessor board for the Amiga this spring! Of course applications will have to be written with the right "hooks," but the power potential is awesome. If NewTek can be convinced to make LightWave compatible with this product, the Amiga will be king of the hill. Since MacroSystem has licensed the rights to the entire line of Elastic Reality Amiga products, expect ADPro to support the card.

Make Or Break

It looks like 1996 will be a real interesting year for the Amiga. In fact, I think it's a make or break year. Something needs to happen to bring the Amiga's raw computing power up to today's standards. That issue is being addressed, but a tangible solution is needed now.

Doug's Best Of 1995

AlphaPaint

Innovision Technology, (510)638-0800

By far the easiest way to create stunning still video graphics. It uses the Toaster's video buffer, so it is truly WYSIWYG.

VLab Motion

NoahJi's, (303)499-1975

For affordable SVHS-quality nonlinear digital editing and animation playback, this is it. With several major software revisions released so far this year, this product is finally realizing some of its potential. It's a shame so few people really know much about it.

Video Toaster Flyer

NewTek, (913)354-1146

NewTek is still working the bugs out, but I really like what I've seen so far. The interface is so darn simple, users will be editing digital video in minutes. It's a little too pricey for the average Joe, but this is the first attempt at a high-quality NLE usable by the masses.

Pyromania

VCE, (818)367-9187

Absolutely stunning animated sequences on CD-ROM. Add Hollywood-quality pyrotechnic effects to your animations.

ImageFX 2.0

Nova Design, (804)282-5868

With the addition of support for 24-bit graphics boards, this image processing program is also a winner as a paint program.

WarpEngine 3040 For The A3000

MacroSystemUS Development, (810)347-3332

This isn't a new product, but I overlooked it last year. Anyway, the 3040 will breathe fire into the old Amiga. Add a 24-bit graphics board and

you've got a super machine. Can't wait for the '060 upgrade.

JIM WARREN

Good Toys And Bad

Yes, there's a ring of truth to, "He with the most toys wins," to say nothing of, "The difference between men and boys is the price of their toys." And it's enjoyable to note that, these days, the clichés are becoming equally applicable to men and boys of all sexes.

So let's talk toys—stuff that I like and use and an item or two that I'd prefer to have never seen. (But you gotta realize—I'm a hardcore workaholic, so my playthings tend to be productivity tools rather than what most folks think of as "toys.")

Hardware

First of all, I'm a **Mac** zealot. These days, I want to *produce*, not diddle.

So, I use Macs rather than PCs (Apple Computer, Cupertino, CA, 408/996-1010).

I do so in spite of the long-term corporate death wish being sought by Apple's meandering, myopic upper management (i.e., they still refuse to license their operating system to most other box builders); they continue the delusion that they're a hardware manufacturer instead of a stellar software innovator, etc.

If Steve Jobs had made the Mac hardware an open platform when it was introduced, PCs would have melted into the dust as cantankerous also-rans. And if they had peddled their OS to every platform maker who wanted it—like Bill Gates did—then Bill would still be peddling BASIC interpreters, Windows would never have [eventually] opened, and most users would have settled into the Mac's *well*-designed user interface and *carefully* integrated system design.

My main machines are a Quadra 650 and PowerBook 540c, with an older PB 170 and an antique CX for faxes, kids, and visitors. (I generally buy the *next*-to-most-recent model of anything—and let other folks do manufacturers' final field debugging.)

Don't get me wrong. I keep a coupla PCs around—an old IBM PC-AT to laugh at and a new NEC Versa P color laptop, compliments of John Dvorak's Lifetime Achievement Award at BBSCON in August.

And in just a few more years, Windows 99++ will be almost as well designed as Macintosh '84. Perhaps even sooner, Microsoft will get enough of the bugs out of Windows 95 so its reliability—if not size—will be almost Mac-like.

Peripherals

For years, I have gotten most of my peripherals from **Alliance Peripheral Systems**—eight or ten hard disks, several DAT tape drives, a quad-speed CD-ROM drive, etc. (APS, Kansas City, MO, *sales@apstech.com*, 1-800-233-7550).

For the PC-afflicted, APS also offers an increasing array of PC subsystems.

The most important reasons I deal with 'em is that they offer excellent tech support, and they back their products—all at competitive prices. Seems like any disk-maker's platters can go bad; APS supports their products, sometimes even sending a replacement to allow copying of files from a dying-but-not-dead drive before shipping it back to them at their expense.

Another reason is that they have created a "smart SCSI" interface that's included in most of their peripheral boxes, which takes most of the electronic chaos out of SCSI chains. Switch it on and it figures out how to make SCSI's black magic behave—nontrivial when mixing cables, lengths, and devices.

And they have done "little stuff that makes a difference." Like offering a compact, solid, U-shaped SCSI connector that plugs exactly from one of their standard enclosures into the next stacked above it (or below it; perspectives vary). No more ever-lengthening SCSI chains of wasteful cables. And for different-sized enclosures, they offer an extra-short, one-foot SCSI cable. *Nice!*

These folks don't just do good business; they do good products and good service.

Backup

Every computer user learns to back up files the same way—they lose hours or days of crucial work due to malfunction of machine or operator (usually the latter). Having first worked as a programmer in the late '60s, I learned decades ago.

APS has several hyper-reliable **DAT-tape** drives—so-called digital audio tape but perfect for data. The plain model that I use costs $700 less a nickel and has saved me more times than I will admit from "imperfect" decisions to erase or modify files (*Wooops!*) and from random malfunctions when our rural power yo-yos in a breeze or a disk dares to die.

Their top-o'-the-line DAT drive will pack up to 4GB onto a single, $20, "120-minute" DAT tape. And that's four gigs *before* compression.

Unless you don't want it, these DAT drives come with **Dantz Development**'s spectacular **Retrospect** backup and archiving software.

You can point-'n'-click script Retrospect to do manual or fully automated backups of local and LANed machines to diskettes, Syquest drives, MOs (magneto-optical removable platters), various-format tapes, etc. You can instruct it to do selective compression, programmed searches and retrievals to or from the backup media, alternative displays of backup directories…you name it.

I can't think of anything else I want in backup software (from APS or from Dantz, Orinda, CA, *dantz@applelink.apple.com*, 510/253-3000).

Fry's And Ethernet

A few months ago, I finally decided to Ethernet my several machines—using, of course, 10BaseT from among Ethernet's confusing grab-bag of alternative technologies. I went to us geeks' utopian shopping mall, the local **Fry's** tech-toy retailer and grocery store. After the obligatory salivating over numerous gadgets for which I have no earthly use, I went to the LAN aisle—that's several aisles away from the candy and junk-food aisle (*Hey!* I *said* this is a nerd's utopia.)

There, I spotted a *neat* little Ethernet hub and transceiver from **Linksys** (Irvine, CA, 714/261-1288)—passive or external power, four 10BaseT plug-in ports plus a fifth hard-wired "local" port, plus an "uplink" plug for daisy-chaining multiple hubs, and topped off by a full set of activity lights—all for a penny less than $100!

Software

I usually fragment my daze between writing and processing email—typically sixty to 160 messages per day—plus irregular database diddling and sporadic desktop publishing, most of this to inflame and support grassroots political action seeking to enhance computer-aided access to government and to deter computer-aided demolition of privacy and civil liberties *by* government.

Happy Holidays From General Micro!

That means *gigabytes* of data and *lots* of text and datafile processing!

Editing And Spreading

Microsoft Word is my default word processor—partly because it's the standard for lots of folks and I often need to exchange formatted documents with 'em. For the same reason—plus Lotus' outrageous arrogance and abusive litigation practices—I use **Excel** as my standard spreadsheet. (I refuse to use Lotus products for anything.)

There are *lots* better ways to design the (in)human interface for word processors and spreadsheets, but I've never seen Microsoft give the care and attention to human-factors engineering that are illustrated in most Mac-oriented programs.

Since I spend much of my time irritating politicians—often a worthwhile and gratifying activity—and have to fondle lots of legislative and statutory gibberish, I also need **WordPerfect**, which seems to be the dominant word processor for legal beagles. But I have not been impressed by their Mac version, and—as I've said—rarely use the PC enough to have an opinion about their PC version.

On the other hand, WordPerfect (Orem, UT, 801/225-5000) *does* give Microsoft competition—and that's valuable in and of itself.

Yes, Word, Excel, and WordPerfect are very robust, productive tools—I'm just excessively picky about human-interface design. I have the strange view that we should train computers to *serve* humans, rather than vice-versa.

Handling Email

For processing, archiving, and utilizing the flood of email I send and receive, I use **Qualcomm**'s stellar email handler, Eudora. Although there's a good freeware version of Eudora floating around, I strongly recommend the wee-fee **Eudora Pro**, which has significant additional features plus tech support and costs around $60 for a single-user version.

Let me be specific: I simply couldn't do anywhere *near* the amount of work I do without a mail-handler as robust and well-designed as Eudora. I know of none better.

There is a Windows version of Eudora that appears to be just as outstanding (Qualcomm, San Diego, CA, *eudora-info@qualcomm.com*, 1-800-238-3672 [or 1-800-2-EUDORA for the alpha-afflicted]).

Databases, Organizers

For years, I kept my main contact database in Apple's HyperCard. But between the constraints of HyperCard and the infuriating, Cobol-like constraints on HyperCard's sorta-programming language, I finally moved the data to **ProVUE's Panorama** (Huntington Beach, CA, 714/841-7779, *provue@provue.com*).

Panorama is the first file I open when I fire up the computer and the last one I close on shutdown. It's always open and constantly used. (I've used it several dozen times just in writing this column.)

Panorama is a *Delightful*, low-cost, flat-file database program that has a surprising number of features, such as a "clairvoyance" option that will try to guess what word you begin to type (it also has *lots* of other features).

ProVUE offers a huge array of wee-fee, pre-programmed packages built on Panorama—seminar registration, credit charge tracking, subscription processing, time billing, inventory, bar codes, ad tracking, bulk-mail processing, spelling, sounds, ZIP+4 codes, and even golf stats and league standings.

And, if you don't want the generalized horsepower of this supercharged little flat-file database system, ProVUE offers a 7-in-1 stripped(?)-down version called **PowerTeam** that is a combo phone book, to-do list, checkbook, mail-list processor, and correspondence handler. It makes most of the other "electronic organizers" look senile, but its price is highly competitive.

JIM WARREN: EVERY COMPUTER USER LEARNS TO BACK UP FILES THE SAME WAY—THEY LOSE HOURS OR DAYS OF CRUCIAL WORK DUE TO MALFUNCTION OF MACHINE OR OPERATOR (USUALLY THE LATTER).

Programming—I'm In Love!

For years, when I had the time to crank out programs for the Mac, I used **Symantec's** *beautifully engineered* **THINK Pascal** or **THINK C** (Symantec, Cupertino, CA, 408/253-9600). These remain excellent tools, especially the Pascal-based development system; but I gotta tell ya, I have a new love:

Metrowerks' CodeWarrior is amazing. This thing ain't just a compiler. It ain't just a development system. It's not just for the Mac. Metrowerks has a whole *array* of programming systems, all integrated into one robust package.

The combined development system is the finest, best-designed package I've ever seen in almost thirty years in computing (Metrowerks, Austin, TX, *sales@metroworks.com*, 512/305-0400).

CodeWarrior includes compilers for C, C++, and Object Pascal and has source-level debugging tools for all code options.

CodeWarrior runs as native code on a 680x0 Mac or a Power Mac. *But*—

It uses the same source code to generate optimized object code for any 680x0 Mac and the Power Mac—*and* for Windows (WIN32, NT, *and* Win 95) for an Intel-compatible X86 or Pentium or 809x86 processor. It even has limited support for Magic Cap programming (beta quality currently available)!

The top-o'-the-line Gold version, with every available bell and whistle plus a year of updates, is $399.

There's a Bronze version ($149) with all of the above, except it only generates code for 680x0 Macs.

There's an Academic version ($99) intended for students that has everything the production version has, except that you can't develop commercial software with it.

There's a $79 Starter Kit intended for entry-level programmers, but it "only" generates 680x0 code and doesn't include a year of free updates.

There's a package of tricks and tools for game programming.

Each of these alternatives—and several others—comes with massive tutorial and reference books, most of which include CD-ROMs packed with information, tools, examples, and exercises. The complete batch of books (with CD-

ROMs) forms a stack well over a foot high—yet most of the remaining packages are priced under $40!

Debug!

The definitive debugging tool for Mac programs—bar none!—is **Jasik Design's The Debugger & MacNosy**. I know of nothing better (Menlo Park, CA, *macnosy@jasik.com*, 415/322-1386).

OCR For Keyless Text-Entry

Optical character recognition is a powerful, though imperfect, tool. And it seems to get better and better, though all but the most simple of text still requires proofreading after input.

My OCR of choice is **Caere's OmniPage**—available for both the Mac (5.0) and the PC (6.0): street price ~$500. It has the maturity of many years of polishing, has an excellent user interface, and produces some of the best recognition I've seen (Caere, Los Gatos, CA, 408/395-7000).

OCR for humdrum typewriter text is one thing. But recognizing multiple fonts, formatted layout, and grayscale text—plus skidding around photos and artwork that is often on a page one would like to input—is another matter entirely. Even more difficult when you want it to retain the font, face, and format characteristics! OmniPage does—at least as well as any OCR package less 'n ten thousand bucks!

But folks often also want to input information from preprinted forms and retain the content and structure of the data—which ain't easy with complex forms. Caere's **OmniForm** does it unusually well.

Neat tools!

Geographic Info Systems

There is an explosion in geography-related software tools for things as simple (and useful!) as planning travel, mapping routes, geography-based marketing plans and presenting data based on location, up to full-fledged mapmaking and map editing, complete with overlays of subsystems and even of satellite images.

GeoQuery is a delightful, low-cost package that can do those invaluable "simple" functions and more. It marries nicely to database and spreadsheet files and produces excellent business maps and color and grayscale displays—though it focuses on data and display, not fancy drawing tools and exotic color separations.

Nice tool when you want to see where you're going (GeoQuery, Naperville, IL, 1-800-541-0181).

For a super-wing-ding, full-blown GIS—geographic information system—that can handle the most complex of maps and mapping demands, I've been using **Atlas Pro** (Mac and DOS versions) from **Strategic Mapping** (Santa Clara, CA, 408/970-9600). They have an even more powerful **Atlas GIS** for Windows (this is no toy; street price is a coupla kilobucks).

Although my copy of Atlas Pro for the Mac is now three years old, what got me hooked on it—and illustrates some of its power—is that it's what the California Supreme Court's Special Masters' Panel used to go from raw 1990 census-tract information to the final state and federal redistricting of the nation's most populous state.

In fact, the exact maps of all of the nation's congressional districts are now available in Atlas format (though most clients use it for more mundane things like mapping complex business data, real estate details, subdivision maps, etc.).

Strategic Mapping also offers a neat, low-cost tool called **Local Expert**. There are detailed maps for many dozens of cities that include restaurants, shopping, business services, night life, etc. plus zip codes, area codes, tools to measure distance, etc.

Even my old copies are useful—especially when I'm roaming around the state or nation.

Services

I've already mentioned that **Fry's** is the first place I go when searching for computer stuff—still worth repeating.

For **online services**, I have been using **The WELL—Whole Earth 'Lectronic Link**—for most of a decade. Its internal public and private conferences have international reputations—mostly due to the massive array of talent and national experts who hang out there but also for the amazing candor of their unfettered commentary (The WELL, Sausalito, CA, *support@well.com*, 415/332-4335).

The WELL has a rapidly growing network of POPs—local dial-up points-of-presence—in dozens of cities around the nation. They provide a whole package of software for Macs and PCs that supports easy email, enhanced connectivity (PPP), multiple simultaneous sessions over a single dial-up line, access to WWW (World Wide Web), etc.

At first glance, their rates are higher than commercial services like Compu$erve, Plodigy, or America Online (AOL), but many of my friends who started out on those "low-cost" services discovered that their bills skyrocketed when they actually used them to any extent.

For folks who don't know everything and would like free advice, suggestions, and technical guidance, the best sources I know of are **online forums** and **local computer clubs**.

Look in the back of most issues of *MicroTimes* for listings of both bulletin-board systems and computer clubs. And if you ask a question online and don't get a prompt answer, try posting a blunt statement of fact that you hope might be the answer. Folks who may not take the time to help answer a question will be quick to refute any imperfect statement complete with all the answers you could possibly desire. (This well-known fact was recently described by John Perry Barlow to a batch of Washington policy-makers [*grin*].)

Knowledge

Lest we gobble up all these gadgets and software and then be unable to use them, it's worth mentioning some of the best sources I know of for tutorials and reference books.

If I'm looking for *anything* about UNIX or the Internet, I *always* turn immediately to **O'Reilly & Associates** (ORA, Sebastapol, CA, *bookquestions@ora.com*, 1-800-998-9938). For years, they were quietly the definitive source of in-depth UNIX documentation—that is, *readable* documentation and tutorials. In recent years, they have aggressively expanded into the huge turf of global networking but have managed to retain their exquisite editorial and technical standards.

For instance, their book by Ed Krol, ***The Whole Internet User's Guide & Catalog***, is the oldest "default standard" comprehensive tutorial and reference book on using the Internet and its amazing array of facilities. I use it constantly.

Prowl their Web site (*www.ora.com*) or ask 'em for a catalog. It's worth it!

For the very best in high-quality Mac tutorials, the first place I look is **Peachpit Press** (Berkeley, CA, 1-800-283-9444). Their massive *Macintosh Bible*, now in its fifth edition, and endless array of software- and application-specific publications are spectacular.

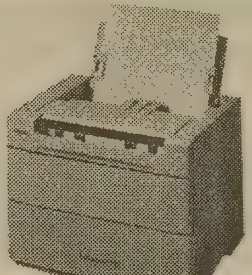
(Monitor not included)

Epson Action Laser™ 1400

The best value in True 600 Laser Printing

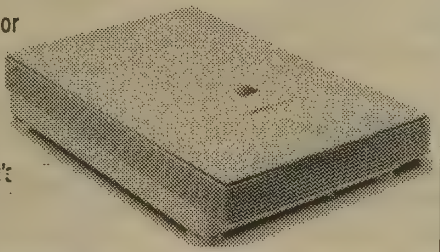
- 600 dpi printing with Edge Smoothing Technology
- 5PCL 5e Compatible
- 2MB Memory with Image Compression Technology
- Printer Control Panel Software for Windows and DOS
- 45 Scalable Fonts, 10 TrueType Compatible



$399

HP ScanJet 4C Scanner

- High quality scanning in B/W or color with 600dpi optical with 2400 enhanced resolution
- Greater shadow detail with 30-bit color internal scanning
- Service and support from the world's leading scanning manufacturer

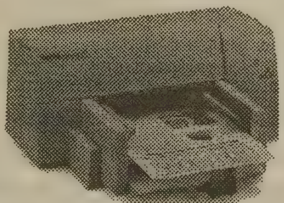


$909

HP DeskJet 660C/ DeskWriter 660C Printers

These printers offer several improved ink formulas, performance, media versatility, simplified design, and software enhancements.

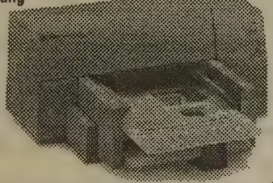
- Crisp, clear black printing at 600dpi plus HP's RET
- Spectacular color at up to 600x300dpi with HP ColorSmart technology
- Printing in a hurry-up to 4ppm in black and 1ppm in color
- Faster, easier printing in Windows
- Hassle-free printing on envelopes, labels and cards
- Simple setup and installation
- Industry-leading three year warranty
- Quiet operation



Your choice **$379**

HP DeskJet 600/ DeskWriter 600 Printers

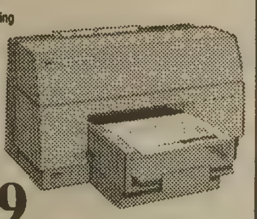
- New Inks for sharper, blacker blacks
- Up to 4 PPM in EconFast Mode
- 600 dpi Plus Resolution Enhancement Technology for clear crisp printing



Your Choice **$289**

HP DeskJet 1600C/ 1600CM Printers

- Professional 600x600dpi black with RET
- Brilliant 300x300dpi color
- Fast, efficient 4ppm color and 9ppm black printing
- Built-in heater for dry, ready-to-go output
- Wide variety of paper types and sizes, and optional 500-sheet paper tray
- Enhanced HP PCL 5 with Color language for HP LaserJet printer compatibility
- Sharable and expandable, with options that support networked use (1600C only)
- Sharable, expandable and network-ready with Adobe™ Postscript™ software (1600CM only)



$1299/1899

HP LaserJet 5L-FS Printer

NEW!

- True 600x600 dpi laser printing
- Lots of font choices
- 4 pages per minute and a 20MHz processor
- Reliable, expandable, shareable, versatile, value-packed printing

And, delightfully, they have been rapidly expanding to cover PC applications with the same quality of tutorial and reference presentations.

The other place I look for consistent, especially high-quality tutorials and reference books is **Addison Wesley** (Reading, MA, 1-800-447-2226), especially for the Mac, since they publish the two-foot-long array of Apple's official *Inside Macintosh* reference manuals. AW has been a mainline academic publisher for much of this century and brings the same excellence and attention to accuracy and detail to its trade and technical books that most university students have encountered in their undergraduate and graduate education.

Among other things, AW publishes Don Knuth's *Art of Computer Programming* series—international standards for academic courses and algorithm reference.

If you are interested in how **government information** is being made available to the public—and how they are withholding it—I highly recommend Harry Hammitt's outstanding little newsletter, ***Access Reports*** (Washington DC, 703/524-5358, *75111.743@compuserve.com*).

It ain't cheap; it's for the serious information professional. But it's the best coverage of what's going on in that turf that I know of.

(I also operate an irregular online listserv called **GovAccess**, via which I circulate a random collection of information and advocacy regarding computer-aided access to local, state, and federal government, and government's ever-escalating use of computers to "access" citizens, overtly and covertly. To subscribe, send email to ***jwarren@well.com***—it's free; worth at least every penny you pay for it.)

Cell-Phones—Praise And Flame

I finally broke down and got a cellular phone last summer. (As an aside: Within the first month of occasional use around the San Francisco Bay Area, I got cloned. But **CellularOne** was quite congenial about reversing the hefty charges for the mass of calls—once I happened to spot them as not being mine.)

I had randomly shopped cell peddlers over the years but was generally ill-impressed with their limited knowledge and/or conflicting answers, or answers that I knew to be false.

Then, the magnificent wizard to whom I turn with weird wireless wonderings—**Dewayne Hendricks** (Warpspeed Imagineering, 510/657-5616, *dewayne@warpspeed.com*)—took me to a **Totally Wireless** store (used to be Skyway Cellular), and I hooked up with Jeff Herz (who should be at their new San Francisco store by now).

Delightful! This guy was knowledgeable, didn't contradict himself, was amazingly patient with my endless interrogation, and was even more amazingly candid. As they say, "Good help is *so* hard to find," and this guy was outstanding.

I was very tempted to get an AT&T 6650—which is what Dewayne had bought and continued to recommend even after using it for a while [*grin*].

This is a dual-mode AMPS (analog) and TDMA (digital) phone that can take advantage of the newer digital cell-sites that are slowly being deployed to better pick up the load from the saturated, call-dropping, antiquated analog cellular technology.

But two things stopped me:

(1) I had some questions that Jeff couldn't answer. (To my delight, he admitted it—unlike others who had tried to bluff their way through random guesstimates.) I called the number that AT&T gives its cellular retailers for sales tech-support. After the usual endless wait, I was told that the tech-support line didn't answer technical questions after 2 pm West Coast time, and was only available Monday thru Friday—even though much cell peddling's done on weekends. And this is a company that's pretending to be a national telecomm services leader? *Geez!*

(2) Although AT&T had advertised a data kit with a PCMCIA fax/modem card for much of a year, they still hadn't figured out how to make the cable for connecting it to their cell-phones. (Dewayne finally got his cable, months after buying his 6650.) Since I wanted a cell-modem for instant gratification, I—foolishly!—ignored Dewayne's guidance and got a Motorola Micro Digital Lite, their upscale dual-mode phone.

Motorola flip-phones seem to have more third-party add-ons than most other cell-phones, and Motorola's announced and advertised data-cables and PCMCIA modems were actually available when I wanted 'em—unlike the announced and publicized cables and modems for most of the competing cell-phones. (Blowing smoke for years before actually delivering a product is apparently not unique to Microsoft Windows products.)

Flipped-Out Flip-Phones

But: Don't believe the hype in those ads that picture the old World War II Motorola walkie-talkies and imply that their flip-phones are just as well designed. That's about like saying that today's tinfoil cars are as sturdy as that magnificent workhorse, the original WW II Jeep. (Remember: Automotive test tracks are primarily for determining how close designers can shave the tinfoil!)

Motorola's Trekkie-like flip-cover—which I thought would be useful protection—turns out to be mostly irritating and often in the way. And you may or may not have to leave the cover open while using the cable-connected modem. Motorola's tech supporter said the only way he knew of to find out was to try it.

Also note: The flip-covers on some models have little holes near the bottom. One might foolishly assume that is the microphone—but the mic is actually in the body of the unit near the hinge. The only purpose for the holes that I've heard is as a sham intended to mislead customers.

The parsimonious display has only eight—bright, *power-sucking!*—LED characters, but the eighth character seems to be unused! Aside from being an obsolete, battery-sapping technology, a seven-character display is totally insufficient for showing numbers that include area codes, much less giving useful hints about the forty or fifty control and multi-step set-up functions that some nonprogrammer may foolishly attempt to use.

Lest the display not kill the battery quickly enough, each key is also brightly lit. And everyone I've talked to reports battery-drain is much faster than what Motorola propaganda pretends. Well, at least they're consistent in the accuracy of their advertising.

The upscale dual-mode Motorola Micro Digital Lite comes with a charger—that only works with wall power. If you want to use this mobile phone while you're mobile—plugging into a cigarette lighter—you get to pay extra for a separate gadget.

Although the batteries leak power fairly quickly and have NiCad's irritating "memory," Motorola's charger has no fast-discharge option. And the phone keeps shutting itself off when power is low and you're trying to finish discharging the battery before recharging, so as to avoid the memory problem.

Okay—you want to use the flip-phone for

1995 Writers' Soapbox Awards

JIM WARREN:

CODEWARRIOR'S COMBINED DEVELOPMENT SYSTEM IS THE FINEST, BEST-DESIGNED PACKAGE I'VE EVER SEEN IN ALMOST THIRTY YEARS IN COMPUTING.

data-communications (because you have too much money and need to run up huge cell charges). The battery drains quickly, so you want to operate it while it's in the charger. *Ha!* Motorola has carefully designed it so the modem cable can't be plugged into the cell-phone while it's in the 110V charger that comes with the unit.

And if you pay extra for Motorola's cigarette-lighter charger, you will discover that it plugs into the same fragile plug as the modem cable. *Geee,* they've thought of everything. (A nameless third-party manufacturer makes a battery-replacement unit that plugs into 12V or 110V.)

There is a small, adhesive-backed "cheat sheet" summarizing some of the control functions. But, just to illustrate the consistency of Motorola cellular's (in)human engineering, they stuck it inside the back, covered by the battery.

If all this isn't enough, Motorola's "modern, state of the art" dual-mode flip-phone gets noticeably warm if you actually use it—enough so that it's clearly uncomfortable when pressed to your ear for many of the minutes prior to the battery going dead.

The one I bought wouldn't transmit touch-tone codes—rather inconvenient for credit card calls, remote voice-mail control, etc. Tone transmission is hardly an "obscure" feature that might have been accidentally left out of any competent engineering check!

When I complained, I was told that this had been a problem with units earlier in the year, but Motorola was supposed to have fixed it. And Motorola policy prohibited the local vendor from simply swapping it for a properly functioning unit—since I didn't discover this until shortly after thirty days from the purchase date. I had to give up the unit so they could send it to Motorola for repair; Motorola ended up replacing it anyway.

Motorola was also offering a $30 Cash Back Offer. I mailed my claim in early July but still haven't seen anything of the rebate.

With design, testing, and service like this, Motorola *needs* a massive advertising program!

Next time, I'll buy an AT&T 6650 or its runner-up, an Ericsson dual-mode DH-338. (Any die-hard wanna make me a ridiculously good offer on my Motorola mistake? *jwarren@well.com*, 415/851-7075.) ■

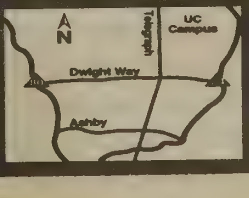
WINNERS CIRCLE SYSTEMS

2618 Telegraph Ave. • Berkeley, California • 510-845-4814 • Fax 510-845-2400
Hours: Monday Thru Saturday 9:30-6

Not responsible for typographical errors



Specialist): Novell/CNE/MS NT—Bill Starmer; Hewlett-Packard LaserJet printers—Zack Uzin; Windows 95—Jeff Barcley.
Operating Systems Supported: MS-DOS, OS/2, Windows 3.11, Windows 95, Windows for Workgroups, Macintosh, Novell
Special Value-Added Services: Free consultations for Novell Network and Windows, MS NT. Will do installations and implementations of networks and post-sales on-site service after installation of the network.

Computer Selection

Store manager: Simon Chow
201 Mission St.
San Francisco, CA 94105
(415)543-9888
Operating Systems Supported: MS-DOS, OS/2, Windows, Windows for Workgroups, Macintosh, Novell

Computer Universe

Store manager: Navid Hanees
176 Sutter St.
San Francisco, CA 94104
(415)362-1444 Fax: (415)362-8444
Areas of Specialty: hardware configuration; networking; corporate services.
Operating Systems Supported: Windows NT, Windows 95, Novell
Special Value-Added Services: Conveniently located in downtown SF with great service and excellent prices. We specialize in corporate sales and carry 1000s of products.

Computown Inc.

Store manager: Gus Rehayel
756 Market St.
San Francisco, CA 94102
(415)956-8696 Fax: (415)956-5548
Areas of Specialty (and In-House Specialist): computer hardware—Gus Rehayel; multimedia—John Mork; networking—Rick Malik.
Operating Systems Supported: MS-DOS, OS/2, Windows NT, Windows for Workgroups, Macintosh, Novell, UNIX
Special Value-Added Services: Computown specializes in computer hardware and software sales. We also offer networking, service, and home computing.

CRL Network Services

Store manager: Philip Burkhart
1 Kearny, #1450
San Francisco, CA 94108
(415)837-5300 Fax: (415)392-9000
sales@crl.com
www.crl.com
Areas of Specialty (and In-House Specialist): UNIX programming—Eric Melhaf; Web pages—Maggie Calderon.

Domino Computer, S.F.

Store manager: Cynthia Sheng
3400 Geary Blvd.
San Francisco, CA 94118
(415)668-9311 Fax: (415)668-0550
Areas of Specialty (and In-House Specialist): all PCs old and new—all technicians; hardware—all technicians; software—all technicians.
Operating Systems Supported: MS-DOS, Windows, Windows for Workgroups
Special Value-Added Services: Best technical support.

Evernet Education Services

Store manager: John Lancaster
71 Stevenson St., Suite 2120
San Francisco, CA 94105
(415)764-1400 Fax: (415)764-1414
GaryPay@aol.com
Areas of Specialty (and In-House Specialist): Novell training—Scott Hart; Hewlett-Packard training, network design and installation—John Lancaster.
Operating Systems Supported: MS-DOS, Windows 3.1, Windows 95, Novell
Special Value-Added Services: We guarantee all of our classes. A student may retake the class for any reason at no additional charge.

HD Computer

Store manager: Michael Bryson
500 Washington St.
San Francisco, CA 94111
(415)434-8118 Fax: (415)434-8128
michaelb@hooked.net
Areas of Specialty (and In-House Specialist): networking, hardware and software solutions—Michael Bryson; notebooks—Leon Yap.
Operating Systems Supported: MS-DOS, OS/2, Windows 3.1, Windows 95, Windows for Workgroups, Novell, UNIX, MS Office
Special Value-Added Services: Custom-built systems, one-year parts and labor warranty, 30-day return policy, convenient downtown location.

Hooked

185 Berry St., Suite 6650
San Francisco, CA 94107
1-800-2-HOOKUP Fax: (415)281-6555

1995 New Product Announcements

continued from page 218

piggyback their individual visitors as they travel through the site, thus providing a better understanding of Web surfing behaviors. It allows you to collect personal information on Web site visitors on two different levels: demographic information given at registration time and surfing information acquired as they travel through the site. ($4995) W3.COM, 459 Hamilton Ave., Suite 202, Palo Alto, CA 94301. (415)323-3378. Email: *info@w3.com* ; URL: *http://W3.COM* .

WebWhacker 1.0

WebWhacker provides an alternative to extended browsing periods and reading time online. After Web pages are downloaded, WebWhacker creates a local map that links them together exactly as they were on the Internet. It creates local links among the Whacked pages while maintaining the global links to pages that are not downloaded. In this fashion, users can quickly get related groups of information, store the data in customized folders, and read them at their convenience while off-line. WebWhacker also seamlessly integrates your desktop Web with the entire World Wide Web. ($49.95, available for Macintosh and Windows) The ForeFront Group, Inc., 1360 Post Oak Blvd., Suite 1660, Houston, TX 77056. (713)961-1101, 1-800-867-1101.

HTML Transit

HTML Transit for Windows employs a new, template-based architecture to automatically generate HTML publications using source files from any major word processor. More than a simple conversion utility, it allows a publisher to specify, in advance, exactly how the HTML document will appear and behave online. It allows a publisher to use one set of source files for both hard copy and online documents. It reads word processing files in their native format, using any existing style assignments as the foundation for its own reusable template. It then automatically produces either a single HTML file or an entire hypertext-linked library according to the template parameters specificed by the publisher. ($495) InfoAccess, Inc., 2800 156th Ave. SE, Bellevue, WA 98007. 1-800-344-9737.

Common Ground Web Publishing System

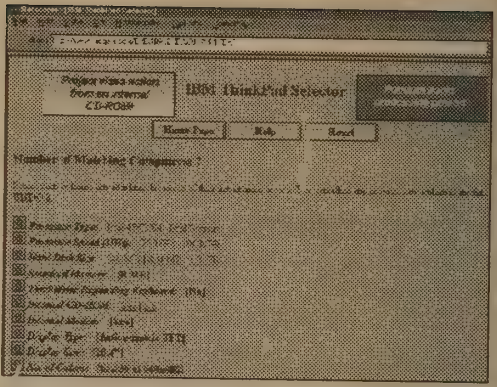
The Common Ground Web Publishing System (CGWPS) converts any electronic document into Common Ground's DigitalPaper format and automatically creates HTML pages that provide users with information on the Web site's DigitalPaper documents. CGWPS consists of two components: Common Ground Web Edition and Common Ground Web Server Tools. Common Ground Web Edition is the authoring tool used to create DigitalPaper documents. It includes the navigational tools to create a Table of Contents and URL hyperlinks to HTML pages and other DigitalPaper documents. Common Ground Web Server Tools enable webmasters to automatically create HTML pages that form a navigational infrastructure of a library of DigitalPaper documents. The Web Server tools are compatible with any CGI-compliant web server software, including NCSA HTTPd, Netscape Communications Server, Navisoft's NaviServer, and CERN web servers. Employing Page-on-Demand technology, users are also able to browse a document online without having to download the entire file. ($999) Common Ground Software, Inc., 303 Twin Dolphin Dr., Suite 420, Redwood City, CA 94065. (415)802-5800.

WebMaker 2.0

WebMaker 2.0 provides a powerful yet easy-to-use Web publishing solution for creating full-featured pages from existing FrameMaker documents. WebMaker handles documents with complex formats, equations, tables, and graphics, including technical manuals, training materials, and both product and research information. By simplifying the conversion process, WebMaker enables organizations to publish materials simultaneously in print and on the Web and update the Web versions automatically when their FrameMaker source files are changed. Version 2.0 allows users to convert multipage FrameMaker documents and books to HTML complete with graphics, tables, and equations. Also, it automatically creates hyperlinks throughout converted Web pages. It is availiable for Windows, Macintosh, and UNIX systems. A free evaluation copy is available through Harlequin's Web site: *http://www.harlequin.com/webmaker/* . ($99) Harlequin, Inc., One Cambridge Center, Cambridge, MA 02142. (617)374-2400.

Step Search

Step Search provides an interface between the Web and a database of product information, and displays a matrix of features as clickable keywords that represent all the available criteria of a product family. When a user clicks on a desired feature, a database query is performed and the interface is immediately updated to show only the other features available for selection. As users continue to click available keywords, Step Search updates available product features incrementally until a single product choice is isolated. It also provides detailed information on features so users can make informed decisions in the selection process. Product features can be chosen in any order, based on individual priorities, and choices may be reversed simply by un-clicking previous options. ($695 for Windows 95 and NT) Saqqara Systems, Inc., 1230 Oakmead Pkwy., Suite 314, Sunnyvale, CA 94086. (408)738-4858. URL: *http://www.saqqara. com/* .



ElectriCiti PowerStation

INTERNET POWERSTATION

PowerStation is a combination of software and services that allows individuals and businesses to easily establish their own presence on the World Wide Web. The software allows users to automatically generate home pages, electronic business cards, resumes, brochures, portfolio pages, and interactive order forms. It also includes CGI scripts, which enable users to receive orders from customers or to program graphic images to act like "point and click" maps. The PowerStation package includes 5MB of Web site space on ElectriCiti's network of high-speed Sun Sparcstations for one year. ($495) ElectriCiti Inc., 2171 India St., Suite C, San Diego, CA 92101. (619)338-9000. URL: *http://www.electriciti.com* . ■

MICROTIMES on the WEB

ttp://www.microtimes.com/

he adventure continues!

invited you to come help us design our World Wide Web site, and e pleased to report that lots of you took us up on it. We received of visits and many useful suggestions, and we're hoping to be to implement some of them as the venture progresses. Not only ve want you to keep visiting and suggesting, we'd like you to g your friends!

Among the offerings you'll currently find:

- **General Information:** How to subscribe, how to advertise, where to find an issue, etc.
- **Cover Stories**
- **The Great Mall of MicroTimes:** Links to advertisers' home pages
- **Family and Friends:** Links to writers' home pages, and other interesting stuff.
- **Resources:** Calendar of Events, User Group/BBS listings, classified ads.

And, of course, linked for your netsurfing pleasure, our own Web page listings.

So head on over to *http://www.microtimes.com/* . Explore. Tell us what you think. Tell us how we can make it better. Email us at *microx@well.com* .

COMPUTER SYSTEMS UNLIMITED
Your Connectivity Experts

Novell Authorized Partner
Microsoft® Windows™
NOVELL. GroupWare
Microsoft® SOLUTION PROVIDER
SCO OK

We offer complete networking services with a personal touch. We design, integrate, install, and support Networks with the latest technology. We specialize in contact-centric applications, database design, and complete integration of marketing and accounting. In addition we offer customized training, plus service and maintenance contracts to cover all your needs. We are authorized resellers for Novell Netware, Novell Groupware, Microsoft Windows NT, Windows '95, and other Microsoft Networking and Desktop products. Also authorized reseller for SCO UNIX, SCO OpenServer, and related products. Trained and certified personnel on staff.

Authorized TeleMagic Marketing Partner

TELEMAGIC®
Marketing Partner

We specialize in TeleMagic. TeleMagic Enterprise is high-performance, Windows-based, company-wide contact management software that is totally customizable. Let us show you how TeleMagic can increase your efficiency and productivity while growing with your business needs. Call today for a free, self-running demonstration.

INFORMIX

With Informix we consult with you regarding your database needs. We offer complete Informix client/server and enterprise-wide database solutions. Plus custom application development and real-time solutions in a variety of network environments.

Five Steps to a Great Vacation with Your Pet

If your pet is in good health and enjoys riding in the car, you can safely take it on vacation with you if you follow these guidelines.

Have your pet **examined by a veterinarian** and get health and rabies certificates. You normally won't need these within the continental U.S., but you should have them on hand. If you're leaving the country, be sure to check on quarantine and certificate requirements. **Make sure pets are welcome** wherever you'll be staying.

Remember to pack food and water **dishes, bedding, leash, and first-aid kit.** Your pet should wear a collar and ID tag at all times—the tag should carry the name and phone number (with area code) of someone who knows how to find you while you travel.

Feed your pet a **light meal** several hours before driving. Keep a bowl of ice cubes in the car to provide your pet moisture without allowing it to take big drinks. Stop frequently for **exercise**, but **never allow your pet to run loose**. A nylon cord with swivel snaps allowing a maximum length of 15 feet makes a good travel leash. (Cats should also wear harnesses.)

If your pet cannot be held by someone in the car or confined by a harness, get a solidly-constructed **pet carrier** with good ventilation for the pet to ride in. Several days before the trip, open the carrier and let the pet get acquainted with it. Cover the bottom with shredded newspaper for the trip. **Never allow your pet to ride with its head out the window**.

Never leave your pet unattended. If you leave it in a parked car on a warm day, it can suffer **heat stroke** in minutes—or it could become a target for dog thieves or pranksters.

Make sure you're prepared to **take good care of your pet and to enjoy its company** before you decide to take it on vacation.

Provided by The Humane Society of the United States.

HSC Electronic Supply

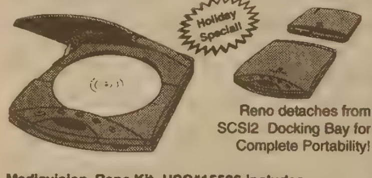
Serving Silicon Valley since 1964!

...wishes you the best for the Holidays and the coming New Year...
To show our appreciation, we lowered prices on several items below!

Multimedia Kit Deal #1

- Mediavision *Reno* External CD ROM/Audio CD Drive:
  - ☞ Consists of new external Reno CD/ROM drive, docking bay with SCSI2 port, AC Adapter
  - ☞ Double-speed 180mS drive is lightning fast!
  - ☞ Drive detaches from docking bay, use with headphones as a portable personal audio CD player
  - ☞ Great for Mac or IBM (adaptor bracket included)
  - ☞ Brand new in box, 90-day warranty

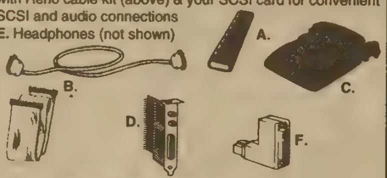
Mediavision Reno Kit HSC#15586 **$89.95**



Reno detaches from SCSI2 Docking Bay for Complete Portability!

- **Mediavision *Reno* Kit HSC#15586 Includes:**

A. Rechargeable Battery Pack
B. Reno Cable Kit (SCSI2 - DB25 cable, 50p. ribbon cable, internal & external audio patch cables)
C. Padded Travel Pouch
D. Internal SCSI IDS50 to DB25 Adapter bracket for IBM, use with Reno cable kit (above) & your SCSI card for convenient SCSI and audio connections
E. Headphones (not shown)



- ***Reno* Accessory Available Separately:**

F. Macintosh Powerbook SCSI Adapter (HDI-30 to 25-pin D connector) **HSC#15704** **$12.50** if purchased alone, or with purchase of Reno Kit, **$5.00**

Lower CD/ROM Prices!

- Tested Good CD/ROM Drives removed from systems
- 90-Day Warranty ◆ 1x, 2x and 3x Speeds available
- Sony is proprietary interface, others are 50-pin SCSI
- Sony drive is tray-type (no caddy needed)

Sony CDU-31 1X-Drive	**HSC# 15650**	**$35.00**
NEC CDR-84J 2X-Drive	**HSC# 15648**	**$59.00**
NEC CDR-510 3X-Drive	**HSC# 15327**	**$99.00**

Multimedia Sound Card!

- Mediavision Pro Audio Spectrum-16 Sound Card
- 16-bit Sound Card with proprietary Sony CD-ROM Port, (May not be usable for drives, but sound portion is fine)
- Joystick Port, Mic. input, Line In & Line Out jacks
- Installation disk, instruction sheet included
- New in OEM packaging (envelope, no box)
- 90-day warranty
- Use with CS-550 speakers above for great sound combo!

Mediavision PAS-16 Card HSC# 15736 **$29.95**

Bargain Game Controller!

- Quickshot QS-191 Game pad for IBM Compatibles
- Faster action, less fatigue than a joystick
- Why pay more for a game device?
- Brand new, plugs into 15-pin game port

HSC#15594 **$3.95**

Multimedia Sound Card!

- Mediavision Pro Audio Spectrum SCSI Sound Card
- 8-bit Sound Card with SCSI Port, great for controlling internal CD/ROM's (see CD/ROM Specials at left, below)
- Joystick Port, Mic. input, Line In & Line Out jacks
- Installation disk, instruction sheet included
- New in OEM packaging (envelope, no box)
- 90-day warranty
- Use with CS-550 speakers below for great sound combo!

Mediavision Sound Card HSC# 15585 **$19.95**

Multimedia Speakers

- Two styles to choose from, both new in box
- White plastic enclosures, grey grilles
- Econo-import model MSS-1000 has:
  - ☞ Volume control, Bass boost switch
  - ☞ Uses 3 C-cells per side, measures 3.5" x 3.5" x 5"
- CS-550 by Labtec (pictured below) has:
  - ☞ Volume control, Bass boost switch, Treble-boost switch, measures 4" x 4" x 6"
  - ☞ CS-550 has 40 - 16000 Hz freq. response, 3" speakers, and power light.
  - ☞ 4 watt amplifiers (uses 2 C-cells per side)
- Both feature magnetically shielded enclosures, "enhanced bass-response cabinet design", and attractive beige styling.

MSS-1000 **HSC# 15127**
Pair/ $6.95

CS-550 **HSC# 15517**
Pair/ $9.95

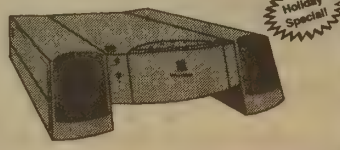
Quantity Discounts Available!

Multimedia Kit Deal #2

- Mediavision ***Memphis*** Kit (Limited Quantities Available)
  - ☞ Consists of used, tested good SCSI double -speed drive, custom enclosure, and detachable Bose active speakers with 10W/Channel amplifiers.
  - ☞ Requires 12VDC 2.5A Adapter, not included. We may have some suitable adapters by press time, inquire about possible substitutes when ordering.
  - ☞ We don't have the interface cable, but you could make your own SCSI Cable to connect to your SCSI sound card (see above). Unit has a high-density 44-pin connector, or remove it and fabricate your own hookup.
  - ☞ Midi ports and audio jacks on back, NEC CDR210 CD/ROM Drive has tray, does not need caddies.
  - ☞ Awesome sound from Bose speakers!



Holiday Special!

Mediavision *Memphis* kit HSC# 15566 **$99.00**

PCMCIA SCSI Card

- Mediavision PCMCIA SCSI II Card for Laptops
- Use with CD/ROM Drives, WORM Drives, Hard Drives, Scanners, any SCSI I or II device
- Bundled with Corel SCSI (ver. 2.04) software
- Cable, installation software, manual included
- Would make excellent laptop connection to *Reno*, above
- New in box with software, 90-day warranty

HSC# 13706 **$79.00**

Seven Disk CD-ROM Changer

- Mountain Network Solutions **CD7** Changer

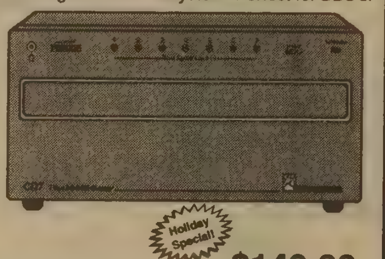
☞ Seven-disk CD-ROM Changer holds over 3.5 Gigabytes of storage! SCSI-1 and SCSI-2 selectable interface, headphone jack on front panel, line-level audio outputs at rear.

☞ Brand new in OEM box, selectable 110/220 VAC input, 90-day warranty, measures 7.75" x 4" x 12.75".

☞ Windows and DOS driver disks, manual included. Works in IBM DOS/Windows environment with Adaptec, Trantor & Future Domain SCSI Controllers with supporting ASPI Drivers (not included). Will work on Mac with special driver available from Ocean Systems (not us, ask for info).

☞ Access time avg. 300 KBps (sustained double speed), 1500 KBps (burst)

☞ Occupies one SCSI address, appears as seven logical drives to system. Perfect for BBS's!



CD7 Changer HSC# 15641 **$149.00**

SCSI Hard Drive Deal!

- Rodime RO3259T SCSI Interface Hard Drive
- 210 Megabytes, 9 heads, 1216 cylinders,
- 18 mS acess time
- 3.5" Half-height form-factor
- Removed from unused sytems
- Tested good, 90 day warranty

HSC# 15698 **$59.00**

Digital Multimeter Deal!

- Low-cost Digital Multimeter with High-end Features!
- 3.5 Digit, case measures 2.75" x 5" x 1"
- DCV to 1KV, ACV to 750
- DC Current to 10A, Ohms to 2 Meg
- Diode, Transistor check with hFE
- Test Leads, 9V Battery included.
- Brand New, 90-day warranty

HSC# 80370 **$19.95**

Motor Mania!

- Small (1.5" x 1.5" x 1") Stepper Motor, 13.2VDC, .45A/Φ, 200 steps per revolution. **HSC# 15597** **$5.95**
- Medium (1.5" dia. x 3") Pittman Motor, 19.1 VDC, with optical shaft encoder. **HSC# 15654** **$9.95**
- Large (3.25" dia. x 6.25") 20VDC @ 5.7A Sanyo Denki permanent magnet DC Reel Motor, 9/16" shaft is stepped down to 1/2", 580rpm, or use as 70W generator! Attention robotics enthusiasts...this is a heavy-duty beauty! **HSC# 15327** **$27.50**

Mini-Tower Power Supply

- New "Mini-tower" power supply, 230W
- Fits most Mini- and Mid-size tower cases as well as many small-footprint desk-top cases.
- Measures 6" x 5.5" x 3.5"
- Has normal motherboard connectors, three large and two small drive connectors on 12" leads
- Push-type power switch on 18" lead.

HSC# 15736 **$19.95**

1200 dpi Color Scanner!

- Dexxa sheet-feed full page (8.5" x 11") color scanner
- 1200 dpi, 24-bit TWAIN interface, Windows compatible
- Factory Refurb in box with extensive software bundle
- Includes OCR Album, Fax, Copy, Image editing, Slide Show, Electronic Database
- IBM interface card & cables included
- Ninety-day Warranty...New Low Price!

Holiday Special!

HSC#15572 **$199.95**

High Power AA NiCads!

- New Kenwood AA NiCad Batteries
- High quality, new, shrink-wrapped
- 1.2V at 800 mAh!
- Regular AA NiCads are only 300mAh
- Standard charge 15 hrs. @ 80mA
- Sorry, no quantity discounts

HSC# 15281 **$2.99 / pr.**

Network Card Bargain!

- Racal Interlan 16-Bit Ethernet Cards
- High Quality US Product, 10-Base-T or AUI
- Manual, Software included
- NE2100 Compatible, NI6510 Compatible
- Handy 5-pack contains 5 cards, 1 Manual and 2-disk software pack

HSC# 15364 **$99.95 / 5pk.**

SCSI Drive Case #1

- Bargain case for 5.25" drives, brand new!
- 7" x 4.5" x 10.5" overall size
- 50-pin SCSI connectors
- SCSI ID switch
- 65W Power Supply
- Fan-cooled, uses standard IEC Power cord (not included)

HSC# 15715 5.25" SCSI Drive Case **$39.95**

SCSI Drive Case #2

- Low-profile case for 5.25" drives
- Perfect for lower-power drives
- 9.5" x 2.5" x 10.5" overall size
- 50-pin SCSI daisy-chain connectors
- Internal audio cable, RCA jacks on back, SCSI ID switch
- Uses External 15-16VDC, 1-2A Supply (Not included)
- Internal Regulator board can deliver +5, +12 @ 1.5A

HSC# 15245 Low-Profile 5.25" Drive Case **$17.95**

Remote Control for your Computer!

Dealer Inquiries Invited!

FORTE COMMUNICATIONS

- Infrared Remote operates your computer from 50 feet
- Perfect for sales presentations, training, demonstrations
- Serial Interface (IBM version) or ADB (Mac version)
- Handheld remote is 7" x 2.5" x .5"
- Included software provides screen pointer for emphasis

Cache
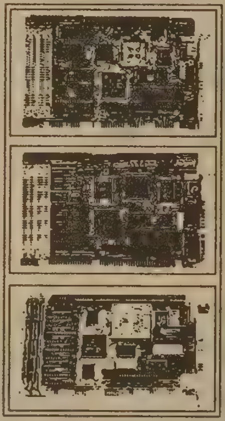
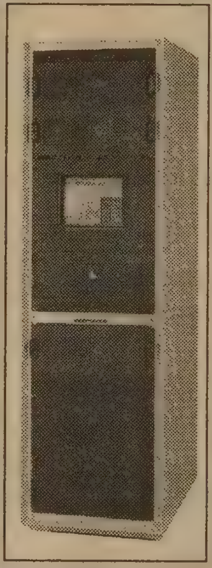
Up to 256KB
Memory
1-64MB DRAM



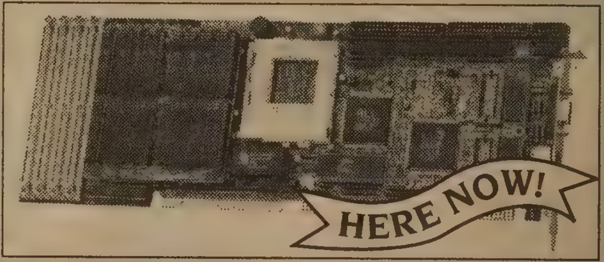


CENTRALIZED LAN SYSTEM

Features:

- FILE SERVER
- MULTI-COMMUNICATION SYSTEM
- MULTI-FUNCTIONAL SYSTEM
- 24 DIFFERENT SYSTEMS CAPABILITY RUNNING AT SAME TIME
- CAPABLE OF CUSTOMIZED SPECIFICATIONS

Upgradable to 133MHz Pentium® Processor Card



- Supports Intel's Pentium® 75/90/100/120/133 MHz Processor
- Configurable w/256KB to 2MB of Write Back Memory
- Four 72-pin SIMM 1 MB to 128MB Memory
- AMI Flash BIOS
- Shadow RAM capability
- 2 High Speed Serial Ports
- BIOS Provides LBA (Logical Back Addressing) to support Hi-Capacity Hard Drives
- PCI IDE interface for Hard Disk w/2 Ser/1 Par Ports
- On Board PS/2 keyboard & mouse connector
- Keyboard Lock & Reset Switch interface
- SVGA Video On Board w/ Upgradable to 2MB

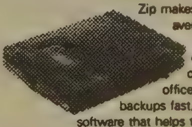
drive zip™

- Easy to Install
- Affordable Media
- Near-Hard-Disk Performance
- Infinite Removable Capacity



Zip makes personal storage affordable for the average PC user. Zip increases the hard drive capacity inexpensively on 100MH or removable disks. ZIP provides high capacity mobile storage-use at home, the office, on the road...anywhere! ZIP makes backups fast, easy, and worry-free with ZIP Tools™ software that helps track and organize everything.

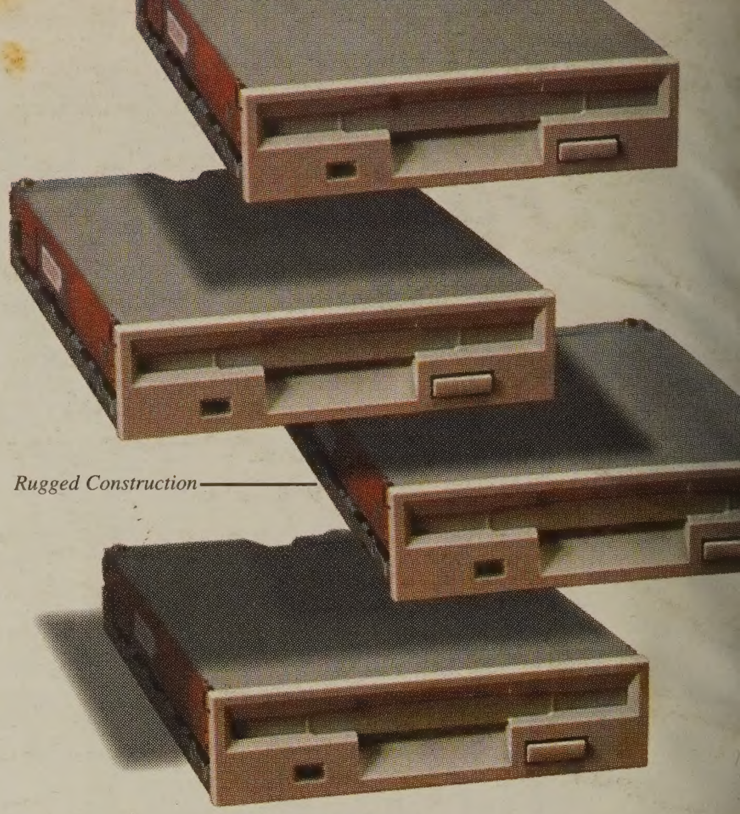
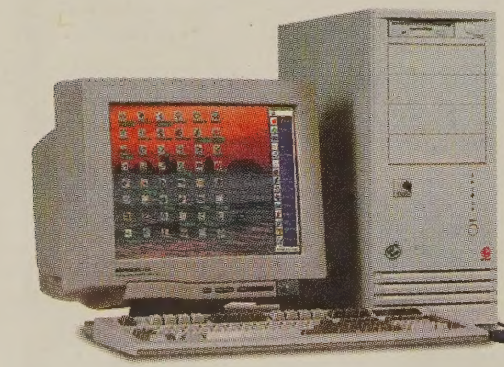
Supercom, building systems with components that are built to last



Mitsumi Floppies



intel inside pentium PROCESSOR

When building systems for the long haul, you have to use components that are built to last. That's why we build our TOUCH systems with Intel Pentium® Processors, Mitsumi keyboards and Mitsumi floppy drives. Mitsumi keyboards feature a tilt foot and soft tactile response. So it's your keyboard that takes the pounding, not your fingers. And Mitsumi floppies offer the consistency found only in high volume production giving you superior performance at unmatched prices. This makes Supercom TOUCH systems some of the most reliable systems around. So if you're looking for systems that are built to last with components to match, call Supercom today at 1-800-888-1888 for reliable high performance computers.
